

When you combine the power of One Talk from Verizon with Samsung, you're ready.

Samsung Galaxy S9 and S9+ users get an enhanced One Talk dialing experience.

One TalkSM from Verizon and Samsung have created an easier way to manage business phone calls from your smartphone.

Similar to a desk phone experience, Samsung Galaxy[®] S9 and S9+ smartphones have new buttons on the dialer to give you easy access to the most common features.

So, whether you make your business calls in the office or on the road, you'll enjoy a simplified calling experience.

With One Talk and Samsung, you're ready.

Easily access advanced business features on your Samsung smartphone.

The next generation of One Talk adds advanced business features to your Samsung[®] smartphone dialer, including the ability to:

- Put calls on hold
- Move calls between One Talk devices
- Transfer calls to coworkers

Enhanced dialer benefits

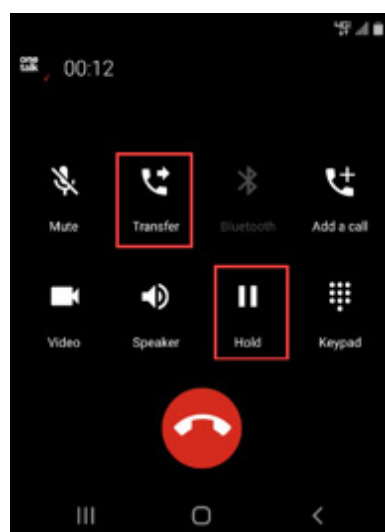

The enhanced dialer offers many benefits to help keep mobile employees productive and provide customers with the best experience possible.

Advanced calling features

New easy-to-access buttons on the Samsung dialer enable you to put a call on hold, move a call between your devices, barge in on a call and transfer a call.

Improved customer experience

You can improve call management, response time and customer satisfaction using integrated business features in the Samsung default dialer.

Requirements for the enhanced dialer

The One Talk enhanced dialer requires the latest Samsung software update for S9 or S9+ smartphones on the Verizon Wireless network. Once the software is updated, you'll automatically see the advanced feature buttons on the Samsung dialer when you make or receive a call.

With the One Talk enhanced dialer, you're ready.

For more information about how the One Talk enhanced dialer helps you stay ready by delivering business-grade calling features on your Samsung S9 and S9+ devices, please contact your Verizon Wireless business specialist, or visit onetalk.com.
