

Even when you're on the go, you can stay ready.

Read how the One Talk mobile app gives you a reliable, cost-effective way to answer customer calls anytime, wherever you work.

At any given time, employees in businesses of all sizes want to connect with customers using their most convenient device.

With the One TalkSM from Verizon mobile app, you can have multiple numbers on one device. So no matter how many hats you wear to keep your business running, you can do it all from a single device.

The One Talk mobile app is available for both AndroidTM and iOS devices. You and your employees can enjoy the benefits of a bring-your-own-device (BYOD) program from any eligible smart devices.

Don't miss out when opportunity calls.

When you have the One Talk mobile app, you can:

Take your business with you wherever you go

Stay connected with your vendors and customers as much as you would like

Design your One Talk system with an automated receptionist that answers calls with a customized greeting and optional directions, so the caller hears what you want, when you want

Say yes to no contract.

We know that no matter the size of your business, every dollar counts. Which is why the One Talk mobile app is the perfect solution. With no contract, you can feel confident it's a good fit for your organization. Using your existing equipment and devices, you can easily assign and unassign phone numbers as needed – even to employees' personal devices. And after you start seeing the benefits of the One Talk mobile app, you can always add other One Talk devices and solutions as your business grows.
