## Verizon Wireless Pricing and Equipment Offer GTA Proposal No. 9800-GTA794

**Government Subscriber:** An employee of Georgia Technology Authority ("GTA" or "Customer") utilizing Wireless Service whose account is set up in Customer's name and for which Customer bears payment responsibility.

**Equipment:** Wireless telephones, data modems and similar devices and ancillary accessories used in conjunction with Wireless Service.

**Wireless Service:** Each and every radio service provided directly or indirectly by Verizon Wireless.

**Eligible Plan(s):** Any generally available Verizon Wireless voice, data or M2M plan with a monthly access fee of \$34.99 or higher that does not prohibit discounts.

**Eligible Data Feature(s):** Any generally available Verizon Wireless data feature with a monthly access fee of \$24.99 or higher, added to an Eligible Calling Plan, that does not prohibit discounts.

**Machine to Machine Service ("M2M Service"):** M2M refers to use of the Wireless Service for the transmission of data between wireless devices and computer servers or other machines, or between wireless devices, with limited or no manual intervention or supervision.

**M2M Line(s):** An individual line of M2M Service used under this Pricing and Equipment Proposal which is set up in Customer's name and for which Customer bears responsibility.

**Plans, Features, Rates and Charges:** The voice, data or M2M plan and any options, features or applications that are selected by the Customer determine the applicable rates, charges, allowance of minutes or megabytes and Wireless Service coverage area for each line. Some plans may have restrictions on the type of Equipment that can be activated on them. Information about retail plans, options, features, and applications (*i.e.*, those that Verizon Wireless makes generally available to consumers or business customers) and their terms and conditions may be obtained at Verizon Wireless stores, on [verizonwireless.com](http://verizonwireless.com) or from Verizon Wireless business sales representatives. The voice, data or M2M plan monthly access fees and non-promotional allowance of minutes and/or megabytes for each line will not change during the Line Term as long as Customer does not change plans on that line. Other rates, charges and fees, including but not limited to charges for options, features, applications and 411 Connect, may be changed following 30 days' written notice. Verizon Wireless may discontinue any retail plans, options, features and applications for new activations without notice. If Customer changes or upgrades Equipment, Verizon Wireless may require it to change to a then-current plan that is compatible with the changed or upgraded Equipment. Customer may not activate Equipment purchase at a discount from Verizon Wireless on M2M Lines. Government discounts and pricing are not available to purchases made through agents or at retail store locations.

**Term of Lines ("Line Term"):** The term for each line (the "Line Term") begins on the date Wireless Service is activated for that line and continues for the period required by the calling plan or Equipment selected for that line (usually 1 or 2 years). Line Term extensions are required when Customer: (a) takes advantage of promotions or services that require a Line Term extension; or (b) purchases or upgrades Equipment except for ancillary accessories used in conjunction with Wireless Service. When the Line Term expires, Wireless Service continues on a month-to-month basis. Activation fees and Early Termination Fees ("ETF's") are waived for Government Subscribers on voice and data plans and for M2M Lines.

**M2M Management Center:** The Machine-to-Machine Management Center ("M2M Management Center") provides Customer with the ability to remotely monitor and manage its M2M devices. If Customer desires to access and use the M2M Management Center, it must so request in writing, and Verizon Wireless shall provision the M2M Management Center on Customer's account. Applicable rates and charges, if any, shall be set forth in any resulting agreement. The M2M Management Center may be provided by Verizon Wireless' third party supplier nPhase. The set-up time is estimated to take four to six weeks. The rights granted to Customer herein for access to and use of the M2M Management Center are specific to Customer and may not be transferred to another party without Verizon Wireless' prior written consent. Verizon Wireless and nPhase retain full and exclusive ownership of all intellectual property rights associated with the M2M Management Center including any alterations, modifications, improvements and derivative works thereof. The limitation of liability, limitation of damages and disclaimer of warranties sections of the Agreement apply to nPhase and to services provided hereunder by nPhase.

**Grandfathered Price Plans:** Verizon Wireless will allow Customer's existing Government Subscribers who are currently procuring services from Verizon Wireless pursuant to previously offered calling plans ("Grandfathered Plans"), to continue receiving such services at the pricing, terms and conditions contained in such Grandfathered Plans until such Subscribers either migrate to the pricing provided in any resulting agreement or terminate such Grandfathered Plans. Existing Government Subscribers procuring services under such Grandfathered Plans are not eligible for Equipment upgrades until such Subscribers migrate to the pricing provided in any resulting agreement.

**Equipment Replacement:** Should a State of Georgia recognized governmental entity notify Verizon Wireless of a lost, stolen or damaged phone that is out of warranty, Verizon Wireless will send a replacement device and charge the account a \$100.00 replacement cost, or the then current government equipment price, whichever is less at the time of purchase, excluding rebates or promotions. For damaged devices, if the State of Georgia recognized governmental entity returns the damaged device within thirty (30) days of receipt of the replacement device, Verizon Wireless will credit the account for any amount over the \$100.00 replacement cost as applicable. If the replacement device is not returned because it is lost or stolen, Verizon Wireless will charge the account \$100.00 or the then current government equipment price, whichever is greater at the time of purchase. Note: This offer is available only once per twelve (12) month period per line, if there is more than one lost, stolen or damaged device per mobile telephone number within a 12-month period, the replacement device cost would be at full retail price.

**Equipment Purchases:** For specific product functionality and features, device and calling plan/feature compatibility, and for the latest equipment pricing, see your Verizon Wireless Government Account Manager or visit [www.verizonwireless.com](http://www.verizonwireless.com). All PC Card, USB Modem, notebooks with Mobile Broadband Built-In, Smartphone or BlackBerry device purchases must be combined with an eligible data plan. Equipment purchased without service activation is not eligible for discounted pricing and will be charged full retail price. A wireless device must be in service for a minimum of 10 months to be eligible for an equipment upgrade at the discounted pricing. Government Subscribers may purchase at Government Equipment Matrix pricing or the then current Government Promotional pricing available from your account manager, whichever is less at the time of purchase. Verizon Wireless reserves the right to disconnect cellular service if a number is disconnected from one wireless device and then reconnected on a new wireless device as a means to circumvent the 10-month upgrade policy. Government Subscriber Equipment Pricing listed in Government Equipment Matrix is not available for activations or upgrades on Verizon Wireless Machine to Machine (M2M) plans. Camera phone use or possession may be prohibited in some locations based on privacy, security, or other restrictions. All Equipment is subject to change and availability; Verizon Wireless reserves the right to add or discontinue models.

**Accessory Discount:** 25% discount off the retail price of eligible accessories. However, should GTA achieve 85,000 lines in service or more, Verizon Wireless will provide a 30% discount off of the retail price of eligible accessories.

This Verizon Wireless offer supersedes all previous offers to GTA that have not been incorporated into an executed Agreement or Amendment.

This service is only available while on Verizon Wireless' 4G network and is not available while roaming. VZ Private IP (MPLS) connectivity required. PNTM relies on customer's applications (VoIP, video, etc.) to appropriately mark IP sessions in order to prioritize their application over the 4G LTE Private Network using Internet Protocol Differentiated Services Code Point (IP DSCP). PNTM 4G LTE device must be certified for use on the Verizon Wireless network (e.g. Open Development/Open Access certified, validated for Private Network and Private Network Traffic Management.)

1. ENTERPRISE MESSAGING: In order to protect our network and safeguard subscriber privacy from unsolicited (spam) or objectionable text messaging, Verizon Wireless employs protective measures, including aggregate message volume limits, content filtering and speed of service limitations on publicly accessible Internet messaging gateways. Verizon Wireless Enterprise Messaging service allows enterprise accounts to send aggregate text messages to other Verizon Wireless subscribers while reducing potential delays related to these protective measures.

2. REQUIREMENTS AND RESTRICTIONS: Enterprise Messaging for Public Safety is only available to customers approved by Verizon Wireless that qualify as Customer must have at least five (5) active Government Subscribers. Verizon Wireless will provision a Pilot Mobile Phone (described below) and provide access to the Enterprise Messaging Access Gateway (EMAG) online portal to set-up and manage the service. Enterprise Messaging can only be used to send messages to Verizon Wireless subscribers and Customer agrees that it will send messages only to subscribers that have opted in to receive its messages by: a) establishing an opt-in process that effectively captures each subscriber's consent to receive Customer's messages, informs subscribers of the nature and scope of Customer's messaging campaigns and any financial obligations ("Standard Messaging Charges Apply") associated with the messaging; b) maintaining opt-in records for a minimum of 6 months from the date of a subscriber's opt-in consent; and c) immediately complying with subscriber opt-out requests such as STOP, END, CANCEL, UNSUBSCRIBE or QUIT in compliance with Mobile Marketing Association (MMA) guidelines ([www.mmaglobal.com](http://www.mmaglobal.com)). Customer can use compatible, properly configured SNPP, WCTP, XML and SMTP messaging protocols, for which it is solely responsible for maintaining facilities to monitor its messaging operations, or the EMAG portal, to send up to fifteen text messages per second to subscribers. Provision of the EMAG service does not obligate Verizon Wireless to support variations of these protocols, whether those variations are optional within the published protocols or authorized or unauthorized variations to the published protocols. Customer agrees that: a) its messaging will comply with applicable industry guidelines (e.g. MMA's Best Practices and CTIA's Wireless Content Guidelines) and Verizon Wireless content ([www.verizon.com/contentpolicy](http://www.verizon.com/contentpolicy)) standards as they may updated from time to time; b) it will not send messages containing executable files or links to other content or premium or similar messages that require a subscription or surcharge; c) it will not install, deploy, or use any hardware, firmware, software or other technology or technique to circumvent Verizon Wireless' messaging network operations protections except as granted under the Contract; and d) it will not send any objectionable material via Enterprise Messaging or advertise, promote, distributed or use objectionable material in connection with Enterprise Messaging (for purposes of the Contract, objectionable material includes, but is not limited to material that: (i) is prohibited by any applicable law, rule or regulation, (ii) contains anything that is obscene or indecent or anything with strong sexual, explicit or erotic themes or that links to such content, (iii) contains hate speech; (iv) contains excessive violence; (v) contains extreme profanity; (vi) contains misleading or fraudulent claims, or (vii) promotes or glamorizes alcohol abuse, illegal drug use or use of tobacco products). Consistent with prevailing standards in other content distribution mediums, content in this category that does not satisfy the above may be distributed if included in the context of artistic, educational, medical, news, scientific or sports material. Customer agrees that its use of Enterprise Messaging will comply with any applicable local, state, national and international laws and regulations.

3. PUBLIC SAFETY FIRST RESPONDERS: Customer acknowledges and agrees that the \$0.00 Enterprise Messaging Monthly Access is being provided free of charge for the purpose of public safety and hereby agrees that it will use this offer in good faith for purposes only associated with public safety activities.

4. LIMITATIONS: Wireless phones use radio transmissions which by their nature do not permit the delivery of text messages when the wireless phone is not in range of one of our transmission sites or a transmission site of another company that has agreed to carry our customer's calls, or if there is insufficient network capacity available to handle the message at that moment. Even within a coverage area, there are many factors that might interfere with the delivery of text messages, including the subscriber's equipment, terrain, proximity to buildings, foliage, and weather. Verizon Wireless also does not own or control all of the various facilities and communications lines between Customer's site and Verizon Wireless Enterprise Messaging access point. Due to these natural and technological limitations and the limitation in the number of messages that can be sent (up to fifteen per second), ENTERPRISE MESSAGING SHOULD NOT BE USED AS THE SOLE MEANS TO SEND MESSAGES THAT CONTAIN INFORMATION THAT IS ESSENTIAL TO THE PROTECTION OF LIFE OR PROPERTY, OR IS MISSION ESSENTIAL OR CRITICAL IN OTHER WAYS.

## Verizon Wireless' Enterprise Messaging Terms of Service (Government)

Verizon Wireless' Enterprise Messaging Access Gateway platform and portal ("EMAG") allows government customers ("Customer") to send high volumes of text messages. This agreement is between Customer as our subscriber and Verizon Wireless ("VZW") and it sets forth the terms and conditions under which Customer agrees to use and VZW agrees to provide access to EMAG. By using EMAG, Customer accepts these Terms of Service ("TOS"), which may be modified by VZW from time to time.

1. **Enterprise Messaging.** EMAG is a VZW service available for a monthly access fee that provides access to EMAG. Customer may use EMAG to send short message service ("SMS") and/or multimedia messaging service ("MMS") messages, as applicable, to VZW subscribers and to subscribers on most domestic wireless carriers; *provided, however*, that inter-carrier messaging requires additional provisioning, is subject to message size, message throughput requirements, and delivery of A2P traffic may also be impacted by another carrier's SPAM policy. Additional charges may apply for inter-carrier messaging Application to Person ("A2P") traffic. Customers must have a valid Blanket Purchase Agreement with at least five (5) active Government lines ("MDNs"). Public Safety/First Responders shall not be subject to the minimum five (5) Government lines requirement. Customer is solely responsible for monitoring its messaging operations. Customers using the EMAG Portal must provide a user ID and password and must safeguard the Portal credentials and prevent unauthorized use. VZW has the right to alter or not offer the EMAG service in part or at all.

2. **Term and TOS Termination.** The term of this TOS shall be one year from the date the Customer signs the TOS ("Effective Date"). The TOS shall automatically renew for additional terms of one (1) year each unless either Party shall give notice of cancellation at least thirty (30) days prior to the expiration of the original term or any renewal term or the TOS or service is otherwise terminated as per the terms of this TOS. Either party may terminate this TOS upon thirty (30) day's written notice to the other party for any reason. Fees are payable on a monthly basis and subject to increase upon thirty (30) days' notice to the Customer. Upon termination by the Customer, fees are due and payable up to the end of the month of termination.

3. **Intellectual Property.** VZW owns all rights, including intellectual property rights, in EMAG and its components, software, tools, portal, documentation, and other materials relating thereto, including modifications, updates, revisions or enhancements. All rights not explicitly given are reserved by VZW.

4. **License Rights and Restrictions.** Subject to the TOS and all documentation provided by VZW, VZW grants to Customer a personal, revocable, limited, nonexclusive, non-transferable, non-sublicensable license during the Term to access and use EMAG solely to send text and picture messages for internal business use. Customer will not, and will not allow any Third Party to, (a) modify, copy, or otherwise reproduce EMAG in whole or in part; (b) reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code form or structure of any of the elements used in EMAG; (c) provide, lease or lend EMAG in whole or in part to any Third Party; (d) remove any proprietary notices or labels displayed on EMAG; (e) modify or create a derivative work of any part of EMAG; (f) use EMAG for any unlawful purpose; (g) use EMAG for any high risk or illegal activity; (h) use EMAG in contravention of any of VZW's policies, procedures, rules or guidelines provided or made available by VZW or use EMAG in such a way that it interferes with, disrupts, damages, or accesses in an unauthorized manner the servers, networks, or other properties or services of VZW; (i) export or re-export EMAG without the appropriate U.S. or foreign government licenses; (j) incorporate or combine EMAG in whole or in part with any open source software in such a way that would cause EMAG, or any portion thereof, to be subject to all or part of the license terms of such open source software; or (k) provide access to or use of EMAG to any Third Party or sublicense any rights in EMAG to any Third Party. Customer is not entitled to resell the EMAG services without the express written approval of VZW.

5. **Content.** Customer is solely responsible for its content it transmits through EMAG (or use by any person or entity Customer permits to access EMAG). Customer agrees that its messaging will comply with applicable industry guidelines (e.g. Mobile Marketing Associate's best practices for messaging, and CTIA's Messaging Principles and Best Practices) and VZW content standards (attached hereto as Exhibit "A"), which may be updated from time to time ("Messaging Guidelines"). Customer will not send any unsolicited bulk commercial messages (i.e., spam), "phishing" messages intended to access private or confidential information through deception, other forms of abusive, harmful, or malicious, unlawful, or otherwise inappropriate messages, messages which required an opt-in that was not obtained, messages containing executable files or links to other content or premium or similar messages that require a subscription or surcharge, and as otherwise set forth in the Messaging Guidelines or as determined by VZW, in its sole discretion. Customer will not transmit any messages that would violate any federal, state or local law, court order, regulation or the Messaging Guidelines. Customer will cooperate with VZW and/or any governmental authority in investigating any violation or prohibited use of EMAG.

6. **Consent Requirements.** Customer agrees that it will send messages only to subscribers that have opted in to receive its messages by: a) establishing an opt-in process that effectively captures each subscriber's consent to receive Customer's messages, informs subscribers of the nature and scope of Customer's messaging campaigns and any financial obligations associated with the messaging; b) maintaining opt-in records for a minimum of 6 months from the date of a recipient's opt-in consent; and c) immediately complying with subscriber opt-out requests such as STOP, END, CANCEL, UNSUBSCRIBE or QUIT in compliance with the Messaging Guidelines. Customer will send messages that require opt-in consent only to those recipients that have affirmatively opted in to receive such messages. Although VZW may provide in the Portal a way to manage lists of opt-out records, it is up to the Customer to obtain the consents and maintain proper records and VZW accepts no responsibility for consents and retention of such records.

7. **HIPAA.** EMAG is not designed for secure transmission or storage of personal healthcare information. Customer will not use EMAG to store or transmit Protected Health Information (PHI) as defined in the Health Insurance Portability & Accountability Act of 1996 and the Health Information Technology for Economic and Clinical Health Act of 2009 and accompanying regulations (collectively "HIPAA"). If Customer is a Covered Entity or a Business Associate as defined by HIPAA, Customer will not use EMAG to store or transmit PHI. policies or procedures, or this TOS, VZW may immediately terminate this TOS and your use of EMAG. "Unauthorized Code" means any virus, Trojan horse, worm, rootkit, back door, trap door, time bomb, drop-dead device, timer, clock, counter or other limiting routine, as well as any other instructions, designs, software routines, or hardware components designed to: (a) disable, erase, or otherwise harm software, hardware, data, text or any other information stored in electronic form; (b) cause any of the foregoing with the passage of time; or (c) place a program or hardware under the positive control of a Third Party other than an owner or licensee of the program or hardware.

11. **Certification Tests.** VZW may conduct certification tests in its sole discretion. Customer will pass such certification tests furnished by VZW prior to using EMAG. If Customer fails any such certification tests, then VZW may, in its sole discretion, refrain from providing Customer with access to EMAG.

12. **Data Retention and Access.** VZW provides access to the metadata relating to the messages (time/date/sent/received) for up to one year. For messages sent or received over the EMAG APIs, VZW provides Customer access to messaging content for up to fourteen (14) days after which time it is deleted. For messages sent or received over the P011al, Verizon retains Customer message content for sixty (60) days after which time it is deleted

13. **Customer Contact.** Customer will provide to VZW contact information including a phone number and email address of an EMAG contact(s), who shall be available during business hours and during such time as Customer utilizes EMAG to assist with the resolving of service matters and trouble shooting. Customer must provide written notice of changes to contact information fourteen days prior.

14. **Termination of Service.** VZW CAN, WITHOUT NOTICE, LIMIT, SUSPEND, OR CANCEL CUSTOMER'S ACCESS TO OR USE OF EMAG IF CUSTOMER VIOLATES THE RESTRICTIONS OF THIS TOS OR FOR GOOD CAUSE, which shall include, but is not limited to: (a) breaching this TOS or Customer's Government agreement with VZW; (b) spamming or other abusive messaging; (c) using EMAG in a way that adversely affects our network, our customers, or other customers; (d) allowing anyone to tamper with messaging applications in a manner contrary to this TOS; (e) any governmental body of competent jurisdiction suspends or terminates Customer's service or institutes a requirement, ruling or regulation that conflicts with this TOS; or (f) operational or other governmental reasons.

15. **Service Limitations.** VZW may establish limits on the use of EMAG, including, but not limited to, the number of messages sent over a limited time period (i.e., per minute, hourly and daily), the number of active connections, and recommended connections per group, as set out in our User's Guide (available on the EMAG Portal) which may be updated from time to time. VZW provides no service level commitments or quality of service standards for EMAG. VZW will provide to Customer maintenance, technical and support services for EMAG, as determined by VZW in its sole discretion. VZW may extend, enhance, or otherwise modify EMAG at any time and for any reason without notice. There are limitations to wireless messaging which by their nature do not permit or may delay the delivery of text messages. These limitations include, but are not limited to, network limitations, when a wireless phone is not in range of one of our transmission sites or those of another company that carries our customer calls, insufficient network capacity, interference due to subscriber's equipment, terrain, proximity to buildings, foliage, and weather. Further, VZW does not own or control all of the various facilities and communications lines between a Customer's site and VZW's EMAG access point. Experience by carrier and region may cause the experience to vary.

Due to these limitations and the limitation in the number of messages that can be sent, EMAG SHOULD NOT BE USED AS THE SOLE MEANS TO SEND MESSAGES THAT CONTAIN INFORMATION THAT IS ESSENTIAL TO THE PROTECTION OF LIFE OR PROPERTY, OR IS MISSION ESSENTIAL OR CRITICAL IN OTHER WAYS. VZW reserves the right to block any messaging traffic that violates this TOS or harms or may harm VZW, EMAG or our assets, network or facilities.

## Verizon Wireless Calling Plan and Feature Details

**Plans and Associated Charges:** Billing, shipping and end-user address must be within an area where Verizon Wireless is licensed and provides service. Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on subscriber's phone. Unused monthly minutes and/or Megabytes are lost. On outgoing calls, charges start when subscriber presses **SEND** or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after subscriber presses **END** or the call disconnects. Calls made on the Verizon Wireless network are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. Calls to "911" and certain other emergency services are toll-free and airtime-free. Airtime may be charged when dialing toll-free numbers.

**Anytime Minutes:** Anytime Minutes apply when making or receiving calls from a calling plan's rate and coverage area. Coverage information is available at [www.verizonwireless.com](http://www.verizonwireless.com). Airtime is rounded up to the next full minute. Allowance minutes/Megabytes are not transferable except as may be available on plans with sharing. In order to gain access to coverage in newly expanding markets, subscribers must periodically dial \*228 to update roaming information from voice or Smartphone devices; from the VZAccess Manager, go into "Options" and click "Activation," while in the National Enhanced Services Rate and Coverage Area every three months. This may alter the rate and coverage area. Automatic roaming may not be available in all areas and rates may vary. Roaming charges may be delayed to a later bill.

**Long Distance:** Unlimited domestic long distance is included when calling from the plan's rate and coverage area, unless otherwise specified in the plan.

Verizon Wireless Calling Plan Included Features	
Call Waiting <sup>1,6</sup>	Three Way Calling <sup>1,6</sup>
Call Forwarding <sup>6</sup>	No Answer/ Busy Transfer <sup>6</sup>

411 Connect <sup>sm</sup> <sup>4,6</sup> (Directory Assistance)	Basic TTXt Messaging <sup>5</sup>

<sup>1</sup>Airtime charges apply to all calls simultaneously.

<sup>2</sup>When making a call, Subscriber's MTN may be displayed to the receiving party with Caller ID capable Equipment. Caller ID service may not be available outside home airtime rate and coverage areas, and may not be compatible with certain enhanced features. Caller ID can be blocked for most calls by dialing \*67 before each call, or by ordering per-line call blocking where available. Calls to some numbers, such as toll-free numbers, cannot be blocked.

<sup>3</sup>Airtime charges apply to message retrieval.

<sup>4</sup>411 Connect, directory assistance with automatic call completion is subject to a per call fee plus airtime charges. Directory assistance rates are subject to change.

**Unlimited Messaging:** Unlimited Messaging is included with the select Plans and is available in the National Enhanced Services rate and coverage area in the United States. Messaging applies when sending and receiving (i) text, picture and video messages to and from Verizon Wireless and Non-Verizon Wireless customers in the United States, (ii) Text, picture, and video messages sent via email, (iii) Instant messages, and (iv) Text messages with customers of wireless carriers in Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands. Messaging is subject to Text, Picture, and Video Messaging Terms and conditions. Premium messages are not included. **Friends & Family for Business:** Calls directed to and received from an account's listed Friends & Family numbers shall not use Monthly Anytime Voice Minutes. For Nationwide for Business plans with 900 minutes or more or 450 minute plan with the share option can add up to ten (10) Friends & Family numbers. Only calls from Nationwide Coverage Area to designated domestic landline or wireless numbers (excluding Directory Assistance, 900 numbers, or customer's own wireless or Voicemail access numbers) may be added; all qualifying lines on an account share the same Friends & Family numbers, up to account's eligibility limits; My Verizon, My Business Account or Verizon Enterprise Center is required to set up and manage Friends & Family numbers.

**Mobile to Mobile Calling:** Mobile to Mobile Calling minutes apply when making calls directly to or receiving calls directly from another Verizon Wireless subscriber while in the Nationwide Rate and Coverage area. Mobile to Mobile calls must originate and terminate while both Verizon Wireless subscribers are within the Mobile to Mobile Calling area. Mobile to Mobile Calling is not available (i) with fixed wireless devices with usage substantially from a single cell site, (ii) for data usage including Push to Talk Plus calls, Picture or Video Messaging (iii) if Call Forwarding or No Answer/Busy Transfer features are activated, (iv) for calls to Verizon Wireless customers using any of the international services, (v) for calls to check Voice Mail, (vi) in those areas of Louisiana and Mississippi where the users roaming indicator flashes, (vii) in Canada and Mexico and (viii) to users whose current wireless exchange restricts the delivery of Caller ID And (viii) for incoming calls if Caller ID is not present or Caller ID Block is initiated. Mobile to Mobile Calling minutes will be applied before Anytime Minutes.

**Night and Weekend Minutes:** Apply to calls made in a calling plan's rate and coverage area only during the following hours: 12:00 am Saturday through 11:59 pm Sunday and 9:01 pm to 5:59 am Monday through Friday. If both Night and Weekend and Mobile to Mobile Calling minute allowances

apply to a given call, Mobile to Mobile Calling minutes will apply before Night and Weekend minutes. However, if either allowance is unlimited, the unlimited allowance will always apply first.

**Nationwide for Business Share Option:** The Share Option is available to businesses with a minimum of five (5) Nationwide for Business lines on the same account with the share option. The Monthly Anytime Minutes of all lines on an account will be aggregated, and then allocated first to the line with the highest anytime minute usage, and then to the line with the next highest usage.

**Push to Talk Plus:** Push to Talk Plus (PTT+) capable Equipment required. Push to Talk Plus capable Equipment can only be used with a Push to Talk Plus calling plan. **Subscribers switching from a Push to Talk Plus Calling Plan to another calling plan may not be able to use certain Push to Talk Plus capable Equipment with the new plan.** Push to Talk Plus calls may only be made with other Verizon Wireless Push to Talk Plus subscribers. Push to Talk Plus Subscribers may initiate or participate on a call, simultaneously, with as many as 250 total participants (total is limited to (50) if interoperating between 3G and 4G participants). Administrators can be designated to manage the Push to Talk contact lists via a single website interface with a single user name/password. Existing Push to Talk Subscriber Equipment may require a software upgrade to use Push to Talk Plus or replacement with a Push to Talk Plus capable device. Push to Talk Plus is only available within the National Enhanced Services Rate and Coverage Area and WiFi access points. There will be a delay from the time a Push to Talk Plus call is initiated until the Push to Talk Plus call is first received by the called party. If an incoming voice call is received while on a Push to Talk Plus call the voice call may be answered and the Push to Talk Plus placed on hold. If an incoming Push to Talk Plus call is received while on a Push to Talk Plus call the PTT call icon can be selected to connect to the Push to Talk Plus call. If the incoming voice or Push to Talk Plus call is not answered a missed call alert will display. Network registration information will be sent to the Equipment each time it is powered on in the National Enhanced Services Rate and Coverage Area, each time the Subscriber travels into the National Enhanced Services Rate and Coverage Area, and every 12 hours if the Subscriber stays within the National Enhanced Services Rate and Coverage Area. While the updated network registration information is being sent to the Equipment, incoming voice calls will go directly to voice mail. Contact list cannot be modified from certain Equipment. Subscriber cannot prevent others who have the Subscriber's MTN from entering the MTN into their Push to Talk contact list. Only one person can speak at a time during a Push to Talk Plus call. In-Call Talker Override (Talker Priority) allows a pre-determined user priority to take the floor to communicate urgent message over participant. Push to Talk Plus services cannot be used for (i) access to the Internet, intranets or other data networks, except as the device's native applications & capabilities permit, (ii) any applications that tether Equipment to laptops, personal computers or other devices for any purpose. Please visit our website [www.verizonwireless.com](http://www.verizonwireless.com) for additional Push to Talk Plus information.

**International Long Distance:** You need International Eligibility to make international calls to most countries, but you can make calls to some North American destinations without it. Additional surcharges may apply when calling certain countries; see [verizonwireless.com/international](http://verizonwireless.com/international) for details.

**Verizon Wireless International Long Distance Value Plan:** International Eligibility required to call most countries. Value Plan feature is not available on all Plans. Rates are subject to change without notice. Standard International Long Distance rates apply in addition to airtime charges per your Plan on calls made from the Verizon Wireless network. Rates and service availability may vary when your phone's banner displays "Extended Network." Value Plan rates apply only on calls to Value Plan Countries made from your Plan's Rate and Coverage Area. If a subscriber's Plan's Rate and Coverage Area includes calls to any Value Plan country, those calls will be billed per the Plan. Except when roaming on another carrier's network, in which case that carrier's rates, taxes and surcharges apply. For Value Plan subscribers, calls made from the Verizon Wireless network to countries not included in the Value Plan will be billed at standard International Long Distance rates. Additional surcharges may apply when calling certain destinations, see [www.verizonwireless.com/international](http://www.verizonwireless.com/international) for details.

**International Roaming:** Some services, such as premium text messaging, directory assistance, entertainment lines and third-party services, may be available, and charges for these services will be billed (along with applicable toll charges) in addition to roaming rates. Message-waiting-indicator service is not available where Text Messaging is not available. When using International Phone, or International Data services, or if you subscribe to a Nationwide Plus Canada or Nationwide Plus Mexico Plan, and you're roaming near country borders, calls may be carried by a cell site located in a neighboring country and billed at that country's rates. Verizon Wireless will terminate your service for good cause if less than half of your voice or data usage over three consecutive billing cycles is on the Verizon Wireless National Enhanced Services Rate and Coverage Area. See [verizonwireless.com/international](http://verizonwireless.com/international) for rates and destinations, which are subject to change without notice. International Eligibility required for GSM roaming, and for roaming in many destinations. Rates, terms and conditions apply only when roaming on participating GSM networks in published destinations. Availability of service, calling features, and Text messaging varies by country and network and may be restricted without notice. You must add International Eligibility to your account to roam in many destinations. Visit [verizonwireless.com/narooming](http://verizonwireless.com/narooming). By using Equipment outside the United States, subscriber is solely responsible for complying with all applicable foreign laws, rules and regulations ("Foreign Laws"), including Foreign Laws regarding use of wireless phones while driving and use of wireless camera phones. Verizon Wireless is not liable for any damages that may result from subscriber's failure to comply with Foreign Laws.

**Roaming in GSM countries:** GSM International Phone, activated in the United States with compatible subscriber Identity Module (SIM) card required. Rates, terms and conditions apply only when roaming on participating GSM networks in published International Phone countries. Service may be available in additional countries, but airtime rates, availability of calling features, and ability to receive incoming calls (including return calls from emergency services personnel) may be restricted. See [www.verizonwireless.com](http://www.verizonwireless.com) for coverage and airtime rates. Service in certain countries may be blocked without prior notice. Where Text messaging is available, Customer will be charged \$0.50 for each message sent and \$0.05 for each message received. Text messaging rates are subject to change. or receiving data using a virtual private network (VPN) involves additional VPN overhead for which you will be charged. Please note that certain applications or widgets periodically send and receive data in the background, without any action by the user, and you will be billed for such data use. Applications may automatically re-initiate data sessions without you pressing or clicking the **SEND** or connect button. Data sessions automatically terminate after 24 hours. A data session is inactive when no data is being transferred. Data sessions may seem inactive while data is actively being transferred, or may seem active when the data is actually cached and data is not being transferred. If you have a Data Only plan and use voice service, domestic voice calls will be billed at \$0.25/minute.

Verizon Wireless is implementing optimization and transcoding technologies in our network to transmit data files in a more efficient manner to allow available network capacity to benefit the greatest number of users. These techniques include caching less data, using less capacity, and sizing the video more appropriately for the device. The optimization process is agnostic to the content itself and to the website that provides it. While Verizon Wireless invests much effort to avoid changing text, image, and video files in the compression process, and while any change to the file is likely to be indiscernible, the optimization process may minimally impact the appearance of the file as displayed on your device. For a further, more detailed explanation of these techniques, please visit [verizonwireless.com/vzoptimization](http://verizonwireless.com/vzoptimization).

Verizon Wireless strives to provide customers with the best experience when using our network, a shared resource among tens of millions of customers. To further this objective, Verizon Wireless has implemented Network Optimization Practices designed to ensure that the overwhelming majority of data customers aren't negatively impacted by the inordinate data consumption of a few users. The reduction can last for the remainder of the current bill cycle and the immediately following bill cycle to ensure high quality network performance for other users at locations and times of peak demand. For a further more detailed explanation of these techniques please visit [www.verizonwireless.com/networkoptimization](http://www.verizonwireless.com/networkoptimization). Data transfer amounts will vary based on application. If you download an audio or video file, the file may be downloaded in sections or in its entirety; data charges will apply to the portion downloaded, regardless of whether you listen to or watch all of it. You may access and monitor your own data usage during a particular billing period, including during the Return Period, by accessing My Verizon online or by contacting Customer Service.

**Data Services: Permitted Uses:** You can use Verizon Wireless Data Services for accessing the Internet and for such uses as: (i) Internet browsing; (ii) email; (iii) intranet access (including accessing corporate intranets, email and individual productivity applications made available by your company); (iv) uploading, downloading and streaming of audio, video and games; and (v) Voice over Internet Protocol (VoIP).

**Data Services: Prohibited Uses.** You may not use our Data Services for illegal purposes or purposes that infringe upon others' intellectual property rights, or in a manner that interferes with other users' service, that violates trade and economic sanctions and prohibitions as promulgated by the Departments of Commerce, Treasury or any other U.S. government agency, that interferes with network's ability to fairly allocate capacity among users, or that otherwise degrades service quality for other users. Each sharing Subscriber's unused anytime minutes will pass to other sharing Subscribers that have exceeded their anytime minutes during the same monthly billing period (Mobile to Mobile minutes and Night and Weekend minutes do not share). Each sharing Subscriber's Monthly Home Airtime Allowance Minutes apply first to that line. Unused Monthly Home Airtime Minutes are then shared with other sharing Subscribers that have exceeded their Monthly Home Airtime Allowance in order of highest usage. At the termination of the Agreement, Government Subscriber lines on America's Choice for Business with Share Option may be migrated onto applicable retail consumer pricing or Government pricing. Calling plan changes may not take effect until the billing cycle following the change request. Based on the geographic location of Customer's Government Subscribers, some Customers may have to have sharing Subscribers activated in more than one Verizon Wireless billing system. Sharing among Subscribers in multiple Verizon Wireless billing systems requires online invoicing or reporting, and a minimum of one hundred (100) Government Subscribers all choosing the Share Option. Unused minutes for cross billing system sharing will be distributed proportionally as a ratio of the minutes needed by each sharing Subscriber to the total minutes needed by all sharing Subscribers. Accounts that share across Verizon Wireless billing systems require set up that may take thirty (30) to sixty (60) days.
