Check it out

When you’re up and running, be sure to explore what your phone can do.

• **Watch**: Experience crisp, clear photos, movies, and videos on your 5.5” high-definition display. See “Photos & videos” on page 40.

• **Automate**: Optimize and customize your phone with the Motorola Experience. See “Discover Your Moto apps” on page 11.

• **Speed**: Browse and navigate at 4G LTE network speeds. See “Browse” on page 38 and “Locate & navigate” on page 45.

• **Connect**: Reach out and connect with Wi-Fi networks, Bluetooth® devices, or just by touching NFC phones. See “Connect & transfer” on page 46.

**Tip**: You don’t need to carry this guide with you. You can view all of these topics in your phone—from the home screen tap Apps 📲 > 🎨 Help.

At a glance

First look

Let’s get started. We’ll guide you through startup and tell you a bit about your phone’s features.

Note: Software updates happen frequently, so your phone may look a little different.

Tips & tricks

• Start: The SIM card is pre-installed in your phone. Just charge up and power on, then follow the screen prompts to set up your phone. See “Start” on page 4.

• Top topics: Just want a quick list of what your phone can do? See “Top topics” on page 3.

• Help: All your questions about your new phone answered right on your phone. Tap Apps > Help. Want even more? See “Get help & more” on page 58.

Note: Certain apps and features may not be available in all countries.

SAR

This product meets the applicable national or international RF exposure guidance (SAR guideline) when used normally against your head or, when worn or carried, at a distance of 1.5 cm from the body. The SAR guideline includes a considerable safety margin designed to assure the safety of all persons, regardless of age and health.

Caution: Before using your phone, please read the Legal Guide provided with the phone.

**Start**

**Put in the cards & power on**

Your 4G nano SIM card is already installed in your phone. If you need to replace the SIM card or insert an optional microSD memory card, follow these instructions.

**Caution:** Make sure you use the correct size SIM card, don’t cut the SIM card, and don’t use an adapter with your SIM card.

1. Use the tool to pop out the SIM/memory card tray.

2. Put the nano SIM card in the tray with the gold contacts facing up. Turn the tray over to put in a microSD memory card.

3. Push the tray back into your phone.

Use the TurboPower™ charger to charge up or top off your phone fast. Your phone shows the charge level as it charges.

To turn on your phone, press and hold the Power button until the screen turns on.

**Warning:** Please use only an approved charging accessory to charge your phone. Improper handling of the charging port, as well as the use of an incompatible charger, may cause damage to your phone and void the warranty.
Battery life
Your phone processes tons of information and apps at 4G LTE speed. Depending on what you use, that can take a lot of power.

To see what’s using up battery power, tap Apps ➔ Settings ➔ Battery.

To help improve battery life, tap Apps ➔ Settings ➔ Battery ➔ Menu ➔ Battery saver.

Tip: To quickly open settings, swipe the status bar or lock screen down with two fingers and tap 📲.

Tips & tricks
To save even more battery life between charges, you could reduce:

• Wi-Fi and Bluetooth® use: Tap Apps ➔ Settings ➔ Wi-Fi or Bluetooth and tap the switch at the top to turn them off when you don’t need them.
• GPS use: Tap Apps ➔ Settings ➔ Location ➔ Mode ➔ Battery saving to turn off GPS tracking.
• Display brightness: Tap Apps ➔ Settings ➔ Display ➔ Brightness level and drag the brightness slider left. Make sure Adaptive brightness is also turned on.
• Display timeout delay: Tap Apps ➔ Settings ➔ Display ➔ Sleep ➔ (shorter setting).
• Widgets that stream information to your home screen, like news or weather.

• Unused online accounts that you registered: Tap Apps ➔ Settings ➔ Accounts. Tap the account you want to remove. Tap it again, then tap Menu ➔ Remove account.
• Recording or watching videos, listening to music, or taking pictures.

Warning: Don’t try to remove or replace the battery yourself—doing so may damage the battery and could cause burning and injury. If your phone becomes unresponsive, try a reboot—press and hold the Power button until the screen goes dark, and your phone restarts.
Setup Wizard
After you power on, let the Setup Wizard walk you through the registration process. Just select your language and follow the screen prompts to get started.

If you use Gmail™, you already have a Google™ account—if not, you can create an account during setup. Signing into your Google account lets you access, sync, and backup your stuff. See your Google apps, contacts, calendar, photos, and more.

Tips & tricks
• **Wi-Fi network**: For faster Internet access or to conserve mobile data use, swipe the status bar down with two fingers and tap Wi-Fi. There’s more in “Wi-Fi Networks” on page 48.
• **Accounts**: To add, edit, or delete accounts, tap Apps > Settings > Accounts. To set up email accounts, see “Gmail” on page 31 and “Email” on page 31.

For help with your Google account, visit www.google.com/accounts.
• **Contacts**: To get your contacts from your old phone, you have options. If your old phone was also an Android™ phone and you used the Android Backup and Restore feature, your contacts automatically appear on your new phone. Otherwise, use the Verizon Cloud app in “Verizon Cloud” on page 7. Or, visit www.motorola.com/transfercontacts.

**Note**: This phone supports apps and services that may use a lot of data, so make sure your data plan meets your needs. Contact your service provider for details.
Verizon Cloud
During setup you can choose to back up your contacts, messages, photos and more on Verizon Cloud, and view them anytime, anywhere on any device. Your content can be easily restored if your phone is lost or damaged, or if you get a new phone.

Old phone to new phone
If you used Verizon Cloud on your old phone, copying your personal stuff from your old phone to your new phone is easy.

On your old phone: Tap Apps \(\rightarrow\) Cloud, then tap \(\rightarrow\) Tools \(\rightarrow\) Content Transfer \(\rightarrow\) Copy content FROM this phone.

On your new phone: Tap Apps \(\rightarrow\) Cloud, then tap \(\rightarrow\) Tools \(\rightarrow\) Content Transfer \(\rightarrow\) Copy content TO this phone. Follow the instructions to copy your content from the cloud to your new phone.

Tips & tricks
• While you’re copying content, you can keep using your phone.
• Signing in to your Google account copies your apps if they are backed up to the cloud.
• For phones that support copying music, not all music can be copied. (If you want to know more, you can search online to learn about digital rights management or DRM-protected files.)
Home screen & apps

Quick start: Home screen & apps

You’ll see the home screen when you turn on your phone or tap Home. From here you can explore apps, check notifications, speak commands, and more.

Tips & tricks

• Return: To return to the home screen from any location, tap Home.
• Pages: To add a page, drag an app to the right side of the screen until you see a white bar. You can add multiple pages. To see other pages of shortcuts and widgets (if available), swipe the home screen left.
• Settings: To quickly open common settings, swipe the status bar down with two fingers instead of one. For even more settings, tap .
• Remove shortcut: To remove an app shortcut from the home screen, touch and hold the app, then drag it to Remove. (Removing the shortcut from the home screen doesn’t uninstall the app from your phone.)
• Customization: For more about changing your home screen, see “Redecorate your home screen” on page 17.
Help & more
How do you do it? Watch a tutorial. Read a how-to. Find out anything about your phone.
Find it: Apps 🔄 > 🟦 Help

Search
At the top of the home screen, tap the Google™ search box for a text search, or say your launch phrase or tap  to search by voice. See “Moto Voice” on page 11 for details.

When you type, suggestions appear below the search field:
• To search for a suggestion, tap it.
• To search for text in the search field, tap on the keyboard.
Tip: To close the keyboard, tap .

Status & notifications
At the top of the screen, icons on the left notify you about new messages or events. If you don’t know what an icon means, swipe the status bar down for details.
Tip: Getting too many notifications? Touch and hold a notification to see which app is sending them to you. Then you can turn them off.

Tip: To remove a notification, flick it to the left or right.
Tip: To clear your notifications, swipe down to see settings and notifications.

Let us suggest a few changes for you.
Watch tutorials, read how-to’s, and more.
Tip: To quickly change common settings, swipe the status bar down with two fingers instead of one. For more, see “Quick settings” on page 18.

Icons at the top right of the screen tell you about phone status:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Network Strength" /></td>
<td>Network strength</td>
</tr>
<tr>
<td><img src="image" alt="Wi-Fi" /></td>
<td>Wi-Fi in range/connected</td>
</tr>
<tr>
<td><img src="image" alt="Bluetooth" /></td>
<td>Bluetooth® on/connected</td>
</tr>
<tr>
<td><img src="image" alt="Airplane Mode" /></td>
<td>Airplane mode</td>
</tr>
<tr>
<td><img src="image" alt="Battery Charging/Full" /></td>
<td>Battery charging/full</td>
</tr>
</tbody>
</table>

Note: Apps you download on Google Play™ Store might show other icons in the status bar to alert you to specific events.

Volume & interruptions

Press the side volume buttons up or down to select a ringer volume from high to vibrate 🗓️.

Set volume by dragging the slider or pressing the side volume buttons.

Tap to switch between vibrate and ring.

Tap an option under the volume slider to select which interruptions and alarms you want to receive:

- **All**: Receive all interruptions and alarms.
- **Priority**: Tap 🌟 to select which interruptions to receive and more. You will always hear alarms. Set when you want to be in this mode, or choose indefinitely.
- **None**: Turn off all sounds and alarms. Override sound settings from other apps. Set how long to stay in this mode, or choose indefinitely.
Motorola Connect

Use the Motorola Connect app to set up, manage, and update Motorola smart devices that you connect to your Droid Maxx 2 phone.

Find it: Apps 📲 → 🔄 Connect

Discover Your Moto apps

Moto apps can simplify life and help you out. Just follow the prompts to find out more.

Find it: Apps 📲 → 🌈 Moto →  🛠️

- Assist: Set your phone to adapt to what you’re doing, where you are. For example, keep alarms quiet at night while you’re sleeping.
- Actions: Learn how to open your camera with two twists of your wrist using Quick Capture. See “Photos & videos” on page 40 for more details.
- Voice: Set your custom launch phrase and control your phone with your voice. See “Moto Voice” for details.
- Display: See messages, calls, and other notifications—even if your phone is asleep.

Tip: Want to hide sensitive or private notifications? Use this option to set which apps can show notifications, and how much to display.

Note: Your phone may not have all features.

Moto Voice

Your phone is always ready for you. Use your voice to control your phone, even when it’s not within reach.

Find it: Apps 📲 → 🌈 Moto → 🎤 Voice → Moto Voice

Tap Setup launch phrase, then follow the prompts to create your launch phrase, like “OK Droid.”

- Use it: Say your launch phrase, then “What’s up?” to hear notifications without unlocking your phone, or “Voicemail” to listen to messages. If you misplace your phone nearby, say “Find my phone” to make your phone ring.
• Get help: Tap Apps > Help. For more commands, say your launch phrase, then “Help me.”

Tip: You can use your voice to control apps like Facebook®, Whatsapp™, and YouTube™.

Note: When prompted to turn on the Moto Voice service in Accessibility settings, tap Yes.

Download apps
Google Play™
Get music, movies, books, apps, games, and more.

Find it: Apps > Play Store
• Find: To search for apps, tap .
• Download: To download an app you found, tap it to see details, then tap INSTALL or the price.
• Share: To share an app you found on Google Play, tap it to see details and then tap .
• Reinstall: To show or reinstall apps you downloaded from Google Play, tap My Apps.
• Use a computer: To find and manage apps from any computer, go to http://play.google.com using your Google account and password.

There, you can browse apps on the big screen, manage your apps across multiple devices (like a phone and tablet), and even set new apps to download to your devices.

• Enjoy music, movies, and more: You can also use Google Play to download music, movies, TV shows, and more. See “Play Music” and “Play Movies & TV” apps.
• Get help: To get help and more, tap .

Apps from the web
You can get apps from other online app stores using your browser.

Tip: Choose your apps and updates carefully, as some may impact your phone’s performance—see “Choose carefully” on page 12.

Note: When installing an app, make sure you read the alerts that tell you what information the app will access. If you don’t want the app to access to this information, cancel the installation.

To let your phone install apps that are not on Google Play, tap Apps > Settings > Security, then tap the Unknown sources switch to turn it on.

For information about downloading files from your browser, see “Downloads” on page 39.

Choose carefully
Here are a few tips:
• To help prevent spyware, phishing, or viruses, use apps from trusted sites, like Google Play.
• In Google Play, check the app’s ratings and comments before installing.
• If you doubt the safety of an app, don’t install it.
• Apps use up memory, data, battery, and processing power—some more than others. If you’re not happy with how much memory, data, battery or processing power an app is using, uninstall it.
• Monitor children’s access to apps to help prevent exposure to inappropriate content.
• Certain apps may not provide completely accurate information. Take care, especially when it comes to personal health.

Take care of your apps

Find it: Apps  ➔, then swipe left to scroll through apps
To close the apps screen, tap Home  ➔ or Back  ➔.
• Uninstall apps: Tap Apps  ➔ ➔ Settings ➔ Apps. Swipe left to ALL, tap an app, then tap DISABLE or UNINSTALL (if available).
  Tip: To quickly show app details, tap Apps  ➔, touch and hold an app, then drag it to App info.
  DISABLE removes the app from your menu—to enable it, reopen this window and tap ENABLE (disabled apps are at the bottom of the list).
  If an app locks up your phone as soon as you turn it on, restart in Safe Mode: Press and hold the Power button. When you see the Power off option, press and hold it to select the Reboot to safe mode option. Your phone restarts with Safe mode in the lower left. Then, try removing the app.
• Reinstall apps: To reinstall apps from Google Play, tap Apps  ➔ ➔ Play Store, then tap ➔ My Apps. The apps you downloaded are listed and available for download.
• See or clear app details: Tap Apps  ➔ ➔ Settings ➔ Apps. A bar at the bottom tells you how much app storage space you have left. Swipe left or right to see the list of DOWNLOADED, RUNNING, or ALL apps, then tap an app in the list to show its details and storage usage. You can tap CLEAR DATA, CLEAR CACHE, or other options.
  Tip: To quickly show app details, tap Apps  ➔, touch and hold an app, then drag it to App info.
• See app data usage: To show which apps are using the most data, tap Apps  ➔ ➔ Settings ➔ Data usage. For more, see “Data use” on page 50.
Update your phone
Use your phone or computer to check, download, and install phone software updates:

• Using your phone:
  If your phone notifies you about an update, follow the instructions to download and install it.
  To manually check for updates, tap Apps > Settings > About phone > System updates.
  Your phone downloads updates over your Wi-Fi connection (if available) or mobile network. We recommend that you download updates over a Wi-Fi connection. Remember, these updates can be quite large (25MB or more) and may not be available in all countries. If the mobile network updates are not available in your country, update using a computer.
  Note: When updating your phone, make sure you have enough battery power to complete the update.

• Using your computer:
  On your computer, go to www.motorola.com/update.

Control & customize
Quick start: Control & customize
Take control of your phone:

• Touch, press, and speak: Learn phone gestures and commands. See “Controls and gestures” on page 15.

• Customize your home screen: To put widgets like a clock, interactive calendar, and more on your home screen, see “Redecorate your home screen” on page 17.
Tips & tricks
• **Speak**: Tap  in a search window, or  on a keyboard.
• **Add a home screen page**: Drag an app icon to the right side of the home screen until you see a white bar. You can add multiple pages.
• **Quick settings**: To change Wi-Fi, Bluetooth, Airplane mode, and other settings, swipe the status bar down with two fingers. For even more settings, tap 📋.
• **Can’t find a setting?** Tap Apps 📦 > 📜 Settings 📜.

Controls and gestures
**Touch**
Find your way around:
• **Tap**: Choose an icon or option.
• **Touch and hold**: See more options.
• **Drag**: Move items on the home screen.
• **Flick**: Quickly open or delete items.
• **Swipe**: Scroll through lists or between screens.
• **Pinch or double-tap**: Zoom in and out on websites, photos, and maps.
• **Twist**: Twist a map with two fingers to rotate it, and pull two fingers down to tilt it.
• **Back**: Tap Back  to go to the previous screen.
• **Home**: Tap Home  to return to the home screen.
• **Overview**: Tap Overview  to see your recent apps (or browser tabs), and tap an app to reopen it. To remove an app from the list, swipe left, right or tap ✗. To scroll the list, swipe up or down.
• **Tip**: You don’t need to remove apps from Overview for your phone to run efficiently.
• **Menus**: When ↓ or ☰ appears on a screen, you can tap it to open options for the current screen.
• **Close Keyboard**: To close a keyboard, tap ↵.
• **Reboot**: To reboot your phone, press and hold the Power button until the screen goes dark and your phone restarts.

**Press**
**Power button**
Your Power button helps in a few ways.
• **Power off**: Press and hold the Power button, then tap **Power off**.
• **Sleep**: To conserve battery power, prevent accidental touches, or when you want to wipe smudges off your touchscreen, put the touchscreen to sleep by pressing the Power button.
• **Wake up**: Press the Power button again.
• **Tip**: To add security to your phone, see “Protect” on page 55.
Volume buttons
Your volume buttons help in a few ways:

• **Ringer volume:** Press the buttons when your phone is ringing to silence it.
• **Earpiece volume:** Press the buttons during a call.
• **Music/video volume:** Press the buttons during a song or video.

**Tip:** For more on volume control, see “Volume & interruptions” on page 10.

Speak
Just tell your phone what you want.

**Tip:** Speak naturally but clearly, like using a speakerphone.

• **Voice commands:** Say your launch phrase to control your phone by voice. See “Moto Voice” on page 11 for details.

  To dial, say “Call” and then a contact name or phone number. Or, say a command like “Send text,” “Go to” an app, or “Help” for voice command help.

  **Tip:** If a contact has more than one number, you can say which number to call (for example, “Call Joe Black Mobile” or “Call Suzi Smith Work”).

• **Search:** Tap 📱 in the home screen to search by voice, or say your launch phrase to speak your search.

  To change your voice input and text-to-speech settings, tap Apps 📲 > 📘 Settings > Language & Input.

  **Tip:** To make your phone read out loud, see “TalkBack” on page 19.

On, off, lock & unlock
Your touchscreen is on when you need it and off when you don’t. To turn the screen on, press the Power button.

• **Screen off & on:** Press the Power button to turn the screen off & on.

  **Screen lock:** To unlock the screen, touch 🛡️ and drag up.

  To use a pattern, PIN, or password to unlock your screen, tap Apps 📲 > 📘 Settings > Security > Screen lock (see “Screen lock” on page 56).

• **Text entry:** On a keyboard, tap 📧, then speak your message or search text. You can also speak punctuation.

  **Tip:** Swipe left to open the camera.

• **Drag up to unlock your screen.**

• **Swipe right to make a call.**

• **Swipe left to open the camera.**
• **Notifications:** Double tap a notification in the lock screen to open it. You’ll be prompted to enter your passcode.
  
  **Tip:** To prevent notifications from appearing in the lock screen, tap Apps 📱 > 📱 Settings > Sound & notification > When device is locked > Don’t show notifications at all.

• **Owner info:** To add a message to your lock screen, tap Apps 📱 > 📱 Settings > Security > Owner info. To set your message, tap Back ⬅️.
  
  **Tip:** Don’t put your mobile number as your contact info unless you can access your voicemail from another device.

• **Screen timeout:** To change your timeout (screen locks automatically), tap Apps 📱 > 📱 Settings > Display > Sleep.

**Customize sounds and appearance**

Customize your phone’s sounds and display settings:

• **Ringtone and notifications:** Tap Apps 📱 > 📱 Settings > Sound & notification.

• **Vibrate or silent:** To make your phone vibrate for incoming calls, tap Apps 📱 > 📱 Settings > Sound & notification > Also vibrate for calls. To turn off ringtones for incoming calls, tap Apps 📱 > 📱 Settings > Sound & notification > Phone ringtone > None.

• **Ringtone for a contact:** To set a personal ringtone for a contact, tap Apps 📱 > 📱 Contacts, tap the contact, then tap 📱 > Menu ⬇️ > Set ringtone.

• **Display settings:** To change brightness, animation, and other display settings, tap Apps 📱 > 📱 Settings > Display.

• **Rotate:** In many apps, the touchscreen switches from portrait to landscape when you rotate your phone. To turn this on or off, swipe the status bar down with two fingers and tap Auto-rotate or Portrait.

• **Language and region:** To set your menu language and region, tap Apps 📱 > 📱 Settings > Language & input > Language.

**Redecorate your home screen**

For quick access to your favorite things, customize your home screen the way you want.

• **Change wallpaper:** Touch and hold an empty spot on the home screen, then tap WALLPAPERS.

• **Add a home screen page:** Drag an app to the right side of the home screen until you see a white bar. You can add multiple pages.

• **Add shortcuts:** Tap Apps 📱, touch and hold an app, then drag it to one of your home screen pages. To see all your apps, tap Apps 📱 and swipe to the left.

• **Create shortcut folders:** Drag one shortcut onto another. Add more shortcuts by dragging them onto the first shortcut. To name the folder, tap it and enter a name below the apps.
• **Add widgets:** Touch and hold an empty spot on the home screen, tap **WIDGETS**, touch and hold a widget, then drag it to your home screen.

• **Resize widgets:** You can resize some widgets—touch and hold a widget until you feel a vibration, then release. Drag the white circles at the edges to resize.

• **Move or delete widgets & shortcuts:** Touch and hold a widget or shortcut until you feel a vibration (or see the icon expand if vibrate is turned off). Then drag it to another spot, another page, or **Remove**.

  **Note:** Removing a shortcut from your home screen doesn’t uninstall the app from your phone.

---

**Quick settings**

For quick access to **Wi-Fi**, **Bluetooth**, **Airplane mode**, brightness, and other settings, swipe the status bar or lock screen down with two fingers. For even more settings, tap 📲.

**Note:** Your quick settings may look a little different.
Accessibility
See, hear, speak, feel, and use. Accessibility features are there for everyone, helping to make things easier.

Find it: Apps > Settings > Accessibility

Note: For general information, accessories, and more, visit www.motorola.com/accessibility.

Voice recognition
Just tell your phone what you’d like to do—dial, browse, search, send a text, and more. Check it out—say your launch phrase to control your phone by voice or ask your phone a question (see “Moto Voice” on page 11 for details). Or, tap at the top of the home screen for voice search.

TalkBack
Use TalkBack to read your screen out loud—your navigation, your selections, even your books.

To turn on TalkBack, tap Apps > Settings > Accessibility > TalkBack, then tap the switch to turn it on.

Note: You might need to download text-to-speech software (data charges may apply).

To use TalkBack:
- **Menus and screens:** Tap an item in a menu or screen. Your phone speaks the name.
- **Dialer & text entry:** Start typing. Your phone speaks each number or letter.
- **Notifications:** Swipe the status bar down. Your phone speaks all of the notifications.
- **Books & more:** Open a book, file, message, and more. Your phone reads the text out loud (app dependent).
- **Browsers:** Enable web pages in your browser to be read out loud. Move between pages, paragraphs, lines, words, or characters.

Tip: Navigate through your apps and menus to hear how voice readouts work on your phone.

To activate this feature, tap Apps > Settings > Accessibility > TalkBack > SETTINGS > Use proximity sensor.

Tip: When Explore by Touch is on (see next section), swipe down then right to open the global context menu, then use the menu to pause TalkBack.

To turn off TalkBack, tap Apps > Settings > Accessibility > TalkBack, then tap the switch to turn it off.

Explore by Touch
Use Explore by Touch to expand TalkBack, and have your touches read out loud as you move your finger around the screen.

To turn on Explore by Touch when TalkBack is active, tap Apps > Settings > Accessibility > TalkBack > SETTINGS > Explore by touch.
Tip: When you turn on TalkBack for the first time, your phone asks if you want to Enable Explore by Touch? Tap OK to turn it on.

Explore by Touch changes your phone's touch gestures so the location of your touches can be read out loud.

• Tap something on the screen to hear a description or text readout.
• Double-tap anywhere on the screen to open or activate the last touched item.
• Swipe using two fingers to scroll through lists or between screens.

Shortcut gestures let you navigate your phone with simple swipe gestures (for example, swipe up then left in a single motion to go to the home screen). To see or change these shortcuts, tap Apps > Settings > Accessibility > TalkBack > SETTINGS > Manage gestures.

Note: The way these gestures are interpreted is specific to TalkBack. Other accessibility services may use the same gestures for different actions.

To learn more about navigating your phone with Explore by Touch, tap Apps > Settings > Accessibility > TalkBack > SETTINGS > Launch “Explore by touch” tutorial.

To turn off Explore by Touch when TalkBack is active, tap Apps > Settings > Accessibility > TalkBack > SETTINGS, and uncheck Explore by touch.

Braille
Combine your Braille display with TalkBack for braille and speech feedback.

1. Download the BrailleBack app on Google Play™ (tap Apps > Play Store), and install it on your phone.
2. Tap Apps > Settings > Accessibility > BrailleBack.
3. Turn on your Braille display and put it in Bluetooth® pairing mode.
4. On your phone, tap Apps > Settings > Bluetooth, then tap the switch at the top to turn it on and scan.
5. Tap the name of your Braille display to pair it with the phone.

Accessibility shortcut
Use simple gestures to quickly activate Talkback and other accessibility features on your phone. For more information, tap Apps > Settings > Accessibility shortcut.

Caller ID
When you want to hear who’s calling:

• Read out loud: Have your caller announced. Tap Apps > Settings > Accessibility > Talkback > SETTINGS > Speak Caller ID.

• Ringtones: Assign a unique ringtone to a contact. Tap Apps > Contacts, tap the contact, tap , then tap Menu > Set ringtone.
Volume & vibrate
Find it: Apps ☰ > 🌐 Settings > Sound & notification
- To set volume levels for your music or videos, alarms, and ringtones, drag the volume sliders.
- To make your phone vibrate for incoming calls (even if the ringer is silent), tap Also vibrate for calls.
Tip: For more on volume control, see “Volume & interruptions” on page 10.

Zoom
Get a closer look.
- Pinch to zoom: Pinch to zoom on maps, web pages, and photos—to zoom in, tap the screen with two fingers and then drag them apart. To zoom out, drag your fingers together.
  Tip: To zoom in, you can also double-tap.
- Screen magnification: Triple tap the screen for full screen magnification, or triple tap and hold to temporarily magnify. Tap Apps ☰ > 🌐 Settings > Accessibility > Magnification gestures.
- Big text: Show bigger text throughout your phone. Tap Apps ☰ > 🌐 Settings > Accessibility > Large text.
  Tip: You can also tap Apps ☰ > 🌐 Settings > Display > Font size > Huge.

- High contrast text: Show higher contrast text throughout your phone. Tap Apps ☰ > 🌐 Settings > Accessibility > High contrast text.
- Browser: Choose text scaling and other accessibility settings for your browser. Tap Apps ☰ > 🌐 Chrome > Menu ☰ > Settings > Accessibility.
  Tip: Select Force enable zoom to allow zooming on all web pages.

Display brightness
Your phone automatically adjusts the screen brightness when you’re in bright or dark places. But you can set your own brightness level instead:
Swipe the status bar or lock screen down with two fingers, and drag the slider to set brightness level.
Note: Setting brightness to a high level decreases your phone’s battery life. To maximize battery life, tap Apps ☰ > 🌐 Settings > Display > Adaptive brightness to let your phone automatically adjust brightness for the available light.

Touchscreen & keys
To hear or feel when you tap the screen, tap Apps ☰ > 🌐 Settings > Sound & notification > Other sounds:
- Dial pad: To hear a tone when you dial a number, select Dial pad tones.
- Screen lock: To hear a click when you lock or unlock the screen, select Screen locking sounds.
• **Touchscreen:** To hear a click when you tap something on the screen, select **Touch sounds**.

• **Keys:** To feel a vibration when you tap the keyboard, select **Vibrate on touch**.

**Messages**
To make text entry even easier, use features like auto-capitalization, auto-correction, and more. Tap **Apps > Settings > Language & input > Google Keyboard > Preferences** or **Text correction**. Of course if you don’t want to type at all, then use your voice—tap on the keyboard.

**Hearing aids**
To help get a clear sound when using a hearing aid or cochlear implant, your phone may have been rated for use with hearing aids. If your phone’s box has “Rated for Hearing Aids” printed on it, then please read the following guidance.

**Note:** Ratings are not a guarantee of compatibility (visit [www.motorola.com/hacphones](http://www.motorola.com/hacphones)). You may also want to consult your hearing health professional, who should be able to help you get the best results.

• **Settings:** Tap **Phone > Menu > Settings > Call settings > Hearing aids.**

• **Call volume:** During a call, press the side volume buttons to set a call volume that works for you.

• **Position:** During a call, hold the phone to your ear as normal, and then rotate/move it to get the best position for speaking and listening.

**TTY**
You can use your phone in TTY mode with standard teletype machines. Tap **Phone > Menu > Settings > Calls > TTY mode** and select the mode you need:

• **TTY Full:** Type and read text on your TTY device.

• **TTY HCO:** Hearing-Carry-Over—type text on your TTY device and listen to voice replies on your phone’s speaker.

• **TTY VCO:** Voice-Carry-Over—speak into your phone and read text replies on your TTY device.

**Note:** You’ll need a cable/adapter to connect your TTY device to the headset jack on your phone.

Refer to your TTY device guide for mode and usage information.
Apps
Google Play™ has something for everyone, and many apps provide useful accessibility features.

Find it: Apps 📲 + Play Store

Calls
Quick start: Calls
Dial contacts, speed dial numbers, recent calls, or numbers, and search, all from one app.

Find it: Phone

• To call a contact or recent call, tap it.
• To open the dialpad, tap 📞. Enter a number, then tap ✆ to call it.

Search your contacts.
Tap to call the last call.
See all your contacts.
Open dialpad to dial a number.

During a call:

Speaker ✆ Mute 📞 Add call
Dialpad 📞 Camera ✆ Advanced
One-way ✆ Calling Features

Call 23
Tips & tricks

- During a call: Your touchscreen goes dark to avoid accidental touches. To wake it up, move it away from your face or press the Power button.
- Multi-task: While you’re on a call, tap Home to hide the call screen and look up a phone number, address, or open other apps. To reopen the call screen, swipe the status bar down and tap Ongoing call.
- Contacts: To search your contacts, tap CONTACTS.
- Favorite contact: Have someone you call all the time? Touch and hold an empty spot on the home screen, tap WIDGETS, then touch and hold the Direct dial widget. Drag it to your home screen, then select the contact. Tap the widget to dial the person.
- Voicemail: (?) appears in the status bar when you have new voicemail. To hear it, tap Phone, then touch and hold 1.

Make calls

When you make a call, you have options:

- Tap Phone to see your recent calls, favorites, and frequently-called contacts. Select a contact or number to call it.
- To dial a number, tap , enter a number, then tap to call it.
- To enter the international dialing code (+), touch and hold 0. To add a pause or wait after numbers, tap Menu.

Note: You can make High-Definition Voice and Video calls with this phone when you add Advanced Calling to your line. Visit verizonwireless.com/AdvancedCalling to learn how.

Answer & end calls

- Answer a call: When your phone is locked, touch and drag right to . When the phone is unlocked, tap ANSWER.
  With call waiting on, touch and drag to to answer the new call, then tap Hold current call + Answer or End current call + Answer.
- Ignore a call: When your phone is locked, touch and drag left to to send the call to voicemail.
  When the phone is unlocked, tap DISMISS.
  You can also press the Power button to ignore the call, or press a volume button to silence the ringer.
- Respond with a text: When your phone is locked, touch and drag up to . Select a message to immediately send it.
- During a call: Tap Mute on the call screen to mute the call. To hide the call screen, tap Home. To reopen it, swipe the status bar down and tap Ongoing call.
**Note:** When you hold your phone to your ear, the touchscreen goes dark to avoid accidental touches. When you move the phone away from your ear, the screen lights up again.
Don't use covers or screen protectors (even clear ones) that cover the proximity sensor above the touchscreen.

- **End a call:** Tap 📞.

**Dial by voice**
Say your launch phrase, then say “Call” followed by a contact name or phone number.

**Tip:** If a contact has more than one number, you can say which number to call (for example, “Call Joe Black Mobile” or “Call Suzi Smith Work”).

**Note:** To set up your launch phrase, see “Moto Voice” on page 11.

**Recent calls**
View your calls (with newest first), and then call, text, or store them:

Find it: 📞 Phone > RECENTS
- To return a call, tap the caller’s name or number, then tap CALL BACK.
- To send a text message, store the number, or other options, tap the caller’s picture.

- To remove an entry from the call log, tap it, then tap DETAILS > 📏.
- To clear the list, tap Menu > Call History, then tap Menu > Clear call history.

**3-way calls**
During a call, you can start another call, switch between them, or join them in a 3-way call:
- To answer a second call, touch 📞 and drag to ☻. To ignore it, touch 📞 and drag to ☺.
  - The first call goes on hold if you answer the second call. To switch between calls, tap ☻ Swap.
- To dial a second call, tap Add call, enter a number, then tap 📞 to call it.
  - The first call goes on hold when you tap 📞. To join the calls after the second call answers, tap ☻ Merge calls.

**Your phone number**
Find it: Apps ☰ > Settings > About phone > Status > My phone number.
Emergency calls

Note: Your service provider programs one or more emergency phone numbers you can call under any circumstances, even when your phone is locked. Emergency numbers vary by country. Your pre-programmed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.

1. Tap 📞 Phone (if your phone is locked, touch ☰ and swipe right, then tap EMERGENCY CALL).
2. Enter the emergency number.
3. Tap ☎️ to call the emergency number.

Note: Your phone can use location based services (GPS and AGPS) to help emergency services find you. See "Location Services" in your legal and safety information.

Contacts

Quick start: Contacts

Combine information from your Google™ contacts and social networks for quick access to everyone you know.

Find it: Apps 📲 + 📞 Contacts

Sort contacts, change settings, accounts, and more.
Search your contacts.
Add a contact.

Tap to view contact information, call, send a text message, and more.

Add a contact.
• **Create:** Tap 

• **Edit or delete:** Tap a contact, then tap 

• **Call, text, or email:** Tap a contact, then tap an option.

**Tips & tricks**

• **Search contacts:** From the home screen, tap the Google search box and enter a contact’s name. In the **Contacts** list, tap .

• **Share a contact:** Tap a contact, then tap **Menu** > **Share** to send it in a message or email, or use a Bluetooth®, Google Drive™, or Android Beam™.

• **Shortcuts:** Tap a contact, then tap **Menu** > **Place on Home screen** to add a shortcut for the contact on your home screen.

• **Synchronize:** On your phone, tap **Apps** > **Settings** > **Accounts**, choose your Google account, then tap your account name to sync it if it has not been updated recently. You can also see these contacts at www.gmail.com.

For help with transferring contacts, see “Verizon Cloud” on page 7 or go to www.motorola.com/transfercontacts.

---

**Create contacts**

**Find it:** Apps > Contacts

Tap a text box to type the name and details. When you’re finished, tap **✓ Save**.

**Note:** To import contacts or change where they’re stored, see “Get contacts” on page 28.

**Call, text, or email contacts**

**Find it:** Apps > Contacts

Tap a contact to see more options. Depending on the information you have for that person, you can call, text, or send email. You can also use voice recognition (see “Speak” on page 16).

**Favorites**

Set your most-used contacts as favorites, so you can get to them faster.

• To set a favorite, tap **Apps** > **Contacts**, select a contact and tap .

• To see your favorites, tap **Apps** > **Contacts** > **FAVORITES**.

Starred contacts also appear at the top of your SPEED DIAL list in the **Phone** app.
Edit, delete, or hide contacts

Find it: Apps > Contacts

• To edit a contact, tap it, then tap . Tap a field to edit it. Tap CHANGE to choose or change the contact’s picture.
• To set a personal ringtone for a contact, tap it, tap , then tap Menu > Set ringtone.
• To delete a contact, tap it, tap , then tap .
  Contacts from social networks will be hidden if you tap . To view these contacts, or delete them permanently, use the social network’s app or website.
• To hide the contacts from an account in your Contacts list, tap Menu > Contacts to display. Tap an account type to show it. Tap Customize to uncheck accounts you always want to hide.

Get contacts

Get all your contacts in one place.

• To add your social networking contacts, tap Apps > Settings > Accounts, then tap Add account.
  Note: You’ll need a social networking app first. To get apps, see “Google Play™” on page 12.
• To add your email contacts, see “Gmail” on page 31 and “Email” on page 31.

Tip: If you add an Exchange account, you can send messages to your coworkers, even if you don’t have them stored in your contacts.
  • To import contacts from your SIM card (if it didn’t happen automatically), tap Apps > Contacts > Menu > Import/export > Import from SIM card. Tap OK to confirm.
  • To import contacts from your computer, upload the contacts to your Google™ account at http://contacts.google.com. On your phone, tap Apps > Contacts > Menu > Accounts > Menu > Auto-sync data. You can also see these contacts at http://mail.google.com.
  For help with transferring contacts, see “Verizon Cloud” on page 7 or go to www.motorola.com/transfercontacts.

Share contacts

Send a contact in a message or email, or use a Bluetooth® connection, Google Drive™, or Android Beam™.

Find it: Apps > Contacts

To share a contact, tap it, then tap Menu > Share and choose how you want to send it.

Note: You can’t share your social network contacts.

My details

Find it: Apps > Contacts
To store your user profile, tap **Set up my profile** under **ME** at the top of the contact list.

**Messages**

**Quick start: Verizon Messages**

Stay in touch with messages and pictures.

**Find it:** 📨 Message

- **Create:** Tap 📨.
- **Attach:** When you’re typing a message, tap 📦 to attach a picture, audio, video, or more.
- **Send:** Tap 📩 to send the message.
Tips & tricks

- **Insert emojis**: Tap 📧 to insert emojis or icons in your message.
- **Send a recorded message**: In the create message screen, touch and hold 📧 to start recording. Speak your message, then release 📧 to send the message.
- **Forward a message**: In a conversation, touch and hold a message for more options, such as forwarding it.
- **Save attachments**: Touch and hold a picture to save it. To see the picture, tap Apps 📧 > Gallery > Download.
- **Voice entry**: Tap a text box, then tap on the keyboard. If you don’t see ✉️ on the keyboard, tap Apps 📧 > Settings > Language & Input > Google Keyboard > Preferences > Voice input key to activate voice entry.
- **Filter conversations**: Touch 🔁 at the top right and swipe left to see all your shared media. Filter your conversations to see photos and videos, locations, links, contacts, or audio files.
- **Text your best friend**: Use a widget to text your favorite contact quickly. Touch and hold an empty spot on the home screen, tap WIDGETS, touch and hold Direct message to drag it to your home screen, then select the contact.
- **Message alert**: To show new message notifications in the status bar, tap Apps 📧 > Settings > Messages > Notifications.

Read, forward & more

**Find it**: Apps 📧 > Message+

- **Open**: Tap a conversation to open it.
- **Attachments**: When you open a message with an attachment, tap the attachment to open it, or touch and hold it to save it.
- **Reply**: Open a conversation, then enter your response in the text box at the bottom.
- **Forward**: Open a conversation, touch and hold the message you want, then tap Forward Message.
- **Delete**: Touch and hold a conversation, then tap Delete Conversation. Or, open the conversation, touch and hold one message, then tap Delete messages.
- **Settings**: Tap ⚙️ at the top left, then tap Settings to change your notifications and other options.

**Set your default messaging app**

You can use Verizon Message+, Messaging, or Google Hangouts™ to send and receive your text messages. To set Apps 📧 > Settings > More > Default SMS app as your default messaging app:

**Find it**: Apps 📧 > Apps > Settings > More > Default SMS app

For more about Google Hangouts, see “Chat using Google Hangouts™” on page 32.
Gmail
Send and receive email from all of your personal accounts (even if they’re not Google Gmail accounts). You can manage your accounts in Gmail and easily switch between them.
Find it: Apps ☰ > Gmail

- **Add Gmail accounts:** The first time you turned on your phone, you probably set up or logged in to your Google™ account—that sets up the Gmail app for one account. To add more Google accounts, tap Apps ☰ > Settings > Accounts, then tap Add account > Google.
  
  Tip: In the Gmail app, tap ☰ > Settings > Add account.

- **Add personal email accounts:** To add other personal email accounts to the Gmail app, tap Apps ☰ > Settings > Accounts > Add account > Personal (IMAP) or Personal (POP3).

- **Change account settings:** To change the settings for a Gmail or email account, tap Apps ☰ > Gmail ☰ > ☰ > Settings, then tap the account name.

- **Delete accounts:** Tap Apps ☰ > Settings > Accounts > Google or Personal (IMAP) or Personal (POP3), tap the account name, then tap Menu ☰ > Remove account.

Email
You can use the Email app to send and receive email on your personal and corporate email accounts.
Find it: Apps ☰ > Email

- **Add personal email accounts:** Tap Apps ☰ > Settings > Accounts > Add account > Email.

- **Add corporate email accounts:** For Microsoft® Exchange server work email accounts, tap Apps ☰ > Settings.

---

Messages 31
Accounts > Add account > Corporate, and enter details from your IT administrator.

- Change account settings: Tap Apps > Email > Settings, then tap the account name.
- Delete accounts: Tap Apps > Settings > Accounts > Email or Corporate, tap the account name, then tap Menu > Remove account.

Chat using Google Hangouts™
Sign in with your Google account to stay in touch with friends and family.

Find it: Apps > Hangouts
- Start a new hangout: Tap +, then tap a name in your list of friends. You can send a text message, or tap ☀️ to make a video call.
- Change settings: Tap Menu ☑️ to see your old hangouts, change your profile pic, other settings, and more.
- Chat from a computer: You can chat from a computer, too. Find out more at www.google.com/hangouts.

Wireless Emergency Alerts
Wireless Emergency Alerts, also known as CMAS or PLAN, is a U.S. national emergency alert system. Emergency alerts can pop up to tell you about a national or local crisis.

Tip: Emergency alerts have a special sound and vibration that is two seconds long, followed by one second, then another one second.
To choose which types of alerts you receive, tap Apps > Emergency Alerts > Menu ☑️ > Settings. The U.S. and local governments send these alerts through your service provider. So you will always receive alerts for the area where you are, and you won’t receive alerts if you’re outside of the U.S.
For more, visit www.ctia.org/consumer_info/safety/.
Type

Quick start: Type

When you tap a text box, like in a message or search, you have keyboard options.

• Type or gesture: Enter letters by touching them one at a time. Or, enter a word by tracing a path through the letters.
• Close the keyboard: Tap ▼.

Tips & tricks

• Move the cursor: Tap a spot in the text to place the cursor, then drag the arrow under the cursor to move it.
• Dictionary: To add a word you enter often, enter it, tap the word in the word list below the text box, then tap there again to add it to your dictionary.
• Symbols: Touch and hold a letter to enter the small number or symbol at the top of it.

To enter several numbers or symbols, tap ❌.

• Double letters: Circle a letter to enter two of them.
• Capital letters: Tap ⬈ or drag it to the letter you want to capitalize.

• Special characters: Touch and hold a letter to choose from other special characters.
• Word prediction: While you’re typing, word suggestions appear above the keyboard. Tap one to select it.
• Voice entry: Tap ⌨️ on the touchscreen keyboard, then say what you want to type. You can speak as long as you like, pause whenever you want, and dictate punctuation.
• Vibrate: Don’t like the vibrating keys when you type? Tap Apps + Settings + Language & input + Google Keyboard + Preferences.
Text entry settings & dictionary
Choose your keyboard style and edit the dictionary of words your phone suggests:

Find it: Apps ➞ Settings ➞ Language & input
• To choose your touchscreen keyboard, tap Current Keyboard ➞ CHOOSE KEYBOARDS. To allow voice entry from the keyboard, tap Google voice typing.
• To change the preferences for your keyboard, tap Google Keyboard.
• To add or edit the words that your phone suggests and recognizes, tap Google Keyboard ➞ Text correction ➞ Personal dictionary.

Cut, copy & paste
Cut, copy, and paste names, phone numbers, addresses, quotes, or anything else in a text box.

1. To highlight a word, touch and hold it.
   To highlight more words, drag the selector at the edge of the highlight.
2. Tap icons to cut or copy.
   Tip: Touch and hold icons to show labels.
3. Open the text box where you want to paste the text (even if it’s in a different app).
4. Tap in the text box, then touch and hold to show the PASTE option. Tap PASTE to paste the text.
Organize

Clock
Find it: Apps 📚 → Clock → 🕒

- **World clock**: For other time zones, tap 🕒.
- **Alarm**: Tap 🕒. Tap an alarm to edit it, or tap to add a new alarm.
  Tip: Pressing the volume buttons up or down while you're setting an alarm sets the volume level for that alarm. When an alarm sounds, tap to turn it off, or tap ⌚️ to snooze for ten minutes.
  To change your alarm volume, snooze delay, or other settings, tap Menu → Settings.
- **Timer**: For a timer, tap ⏰.
- **Stopwatch**: For a stopwatch, tap 🕒.
  Tip: To find out what an icon means, touch and hold it. To set your current date, time, time zone, and formats, tap Apps 📚 → Settings → Date & time.

Calendar
See all your events, all in one place.
Find it: Apps 📚 → Calendar

- **Change the view**: Tap the month at the top to choose a date to view. Or tap Menu → to choose Day, Week, Month, or Agenda.
- **Go to today’s date**: Tap at the top.
- **Add events**: From any view, tap Menu → New event. Enter event details, then tap DONE.
Organize

- **Show, edit, or delete events**: Tap an event to open it, then tap edit or delete.
- **Show, hide, or add calendars**: Tap Menu > Calendars to display to show or hide calendars from your Google™ account. You can use a computer to add or remove calendars on your Google account at www.google.com/calendar.
  
  **Tip**: Add a Calendar widget to your home screen. Touch and hold an empty spot on the home screen, tap WIDGETS, then touch and hold the Calendar widget and drag it to your home screen.

**Corporate sync**
If you use Microsoft® Office Outlook on your work computer, your phone can synchronize email, events, and contacts with your Microsoft Exchange server.
- To add your Corporate account, see “Email” on page 31.
- To choose what to sync from your Corporate account, tap Apps > Settings > Accounts > Corporate, tap your account, then check options like Calendar, Contacts, or Email.

**Office network**
To connect your office network with a Virtual Private Network connection, see “Virtual Private Networks (VPN)” on page 54.

---

**Google Drive™**
Keep all your photos, videos, documents, and more safely in one place—private unless you choose to share. Available on Google Drive from all your devices.

**Find it**: Apps Drive
- To create a new file or folder, tap .
- To open a file, tap it.
- To edit a document, tap anywhere in the text to begin typing.

**Print**
To print your photos, documents, and more from your phone, check if your printer’s manufacture has an app on Google Play. Then tap Apps > Settings > Printing to get started.

You can also send your photos, docs, and more to any Android device in your cloud or to Google Drive. Just download the Cloud Print app from Google.
Google Apps™

Google Play™
Google Play is a digital content experience from Google where you can find and enjoy your favorite music, movies, TV shows, books, magazines, and Android apps and games.

- **Download apps:** Tap Apps ➔ Play Store.
- **Find out more about Google products:** See www.google.com/about/products.
- **Log in or open a Google account:** Visit www.google.com/accounts.
- **Google help:** See www.google.com/support.
- **Access all of your files in the cloud:** Check out “Your cloud” on page 53.

Google Now™
Google Now brings you just the right information at just the right time, before you even ask. Weather, traffic, transit schedules, even the latest scores come automatically, appearing throughout the day just as you need them.

To get started, touch and hold Home , then swipe up to the Google icon .

- **Nearby events**
  - The Bordertown Devils
  - University Auditorium
  - in 3 days, 8:00PM
  - Concerts

- **Capitol Cities**
  - Set reminders, customize or change settings.
  - Stuff that's important to you shows up here.
  - Tip: To remove a card, flick it to the left or right.
Tips:
• Turn off Google Now: Tap 
吸入 > Settings > Now cards, then tap the Show cards switch to turn it off.
• Reactivate Google Now: Tap Apps 
吸入 > Google > GET NOW CARDS.

Play Movies & TV
Find and rent movies and TV shows to watch on your phone, tablet, or computer:
Find it: Apps 
吸入 > Play Movies & TV.
To shop, rent, or watch on a computer, go to www.google.com/play and choose “Movies & TV”.

YouTube™
Watch videos from YouTube users everywhere—or log in to your account to share your own.
Find it: Apps 
吸入 > YouTube

Browse
Quick start: Chrome™
Find it: Apps 
吸入 > Chrome
• Go to a web page: Tap the address bar at the top of a page and enter an address.
• Add a bookmark: Open the address bar (drag down if you don’t see it), then tap Menu 
吸入 > Bookmarks.
• Open a bookmark: Open the address bar, then tap Menu 
吸入 > Bookmarks.

Why do we yawn?
https://www.google.com
Mobile-friendly - May 12, 2014 - Well, both sleep deprivation and exhaustion are known to increase brain temperature, so while it’s true that we yawn to combat lack of sleep, yawns don’t make us ‘more awake’ but instead help keep our brains why do we yawn
www.independent.co.uk › News › Science
We yawn when we’re sleepy or bored or if we see someone else yawn. Some people also yawn when they’re anticipating something important and when they’re stressed. Many think it’s because the brain lacks oxygen, but according to a new study, the thing most of these instances have in common is thermoregulation.
Why Do We Yawn? | IFLScience
www.iflscience.com/.../why-do-we-yawn
Tips & tricks

- **Web page shortcut:** To add a web page shortcut to your home screen, go to the web page and tap Menu ➔ Add to homescreen.

- **Internet search shortcut:** In the home screen, tap the Google™ search box and enter a website address.
  
  **Note:** If you can’t connect, contact your service provider.

- **Mobile sites:** Some websites automatically show you a “mobile” version of their page—if you want to show the standard computer versions of all websites, tap Menu ➔ Request desktop site.

- **Reload:** If a page doesn’t load correctly, tap Menu ➔ Reload.

- **Tabs:** To open a new tab, tap Menu ➔ New tab. If you have more than one browser page open, tap Overview to move from one to another.

- **Clear history:** In the browser, tap Menu ➔ Settings ➔ Privacy ➔ CLEAR BROWSING DATA. Then choose history, cache, cookies, and other options.

- **Help:** For more about Google Chrome, tap Menu ➔ Help & feedback or visit www.supportgoogle.com/chrome.

Web connection

To access the web, your phone uses your Wi-Fi network (or your mobile phone network if no Wi-Fi network is connected).

**Note:** Your service provider may charge to surf the web or download data over your mobile phone network.

To connect to a Wi-Fi network, see “Wi-Fi Networks” on page 48.

Downloads

**Warning:** Apps downloaded from the web can be from unknown sources. To protect your phone and personal data from theft, download apps only on Google Play™.

To download a file, picture, or web page, tap Apps 📦 ➔ Chrome and go to the website:

- **Files:** Tap the download link. To show the file or app, tap Apps 📦 ➔ Downloads.

- **Pictures:** Touch and hold it to choose Save Image. To see the picture, tap Apps 📦 ➔ Gallery ➔ Download.

To download apps or phone updates, see “Download apps” on page 12 or “Update your phone” on page 14.

Browser options

To change your browser security settings, text size, and other options, tap Menu ➔ Settings.
Safe surfing & searching

Keep track of what your browser and searches show:

• **Incognito**: To open a tab that won’t appear in your browser or search history, tap Apps > Chrome > Menu > New Incognito tab.

• **Clear history**: To clear your browser history and other saved information, tap Apps > Chrome > Menu > History > CLEAR BROWSING DATA.

• **Auto complete**: When you enter your name in an online form, your browser can automatically enter your address information. If you don’t want that, tap Apps > Chrome > Menu > Settings > Autofill forms, then tap the switch to turn it off.

• **Pop-ups**: To stop pop-up windows from opening, tap Apps > Chrome > Menu > Settings > Site settings > Pop-ups, then tap the switch to turn it off.

Photos & videos

Quick start: Photos & videos

Take crisp, clear photos with your 21 megapixel camera.

• **Launch it**: Even when your phone is asleep, open the camera with two twists of your wrist.

• **See it**: Swipe left for your photo gallery (Gallery).

• **Share it**: View a photo or video from your gallery, then tap Share

Tap anywhere to take the photo. Touch and hold to take rapid shots.
Tips & tricks

• **Quick Capture**: Tap ☰ Camera, swipe the screen right and tap ☰ to turn Quick Capture on or off. When Quick Capture is on, twist your wrist twice to open the camera.

• **Take a selfie**: Tap 📸 in the camera screen, or twist your wrist twice to switch to the front camera.

• **Record a video**: Tap 🎥 in the camera screen to temporarily switch to the video camera and start recording. Then tap ○ to stop recording.

• **Capture a still shot during a video**: Tap anywhere on the screen while recording to save a photo.

• **View, share, or delete**: To open your gallery, swipe the camera screen left. Pick a photo or video. Tap ☰ to share, ☰ to delete, or Menu 📖 for more options.

• **Change settings**: To open camera options, swipe the camera screen right. Rotate the dial to see more options.

• **Zoom**: Drag the camera screen up or down using one finger.

• **Multi-shot**: When you’re ready, touch and hold the camera screen to take a burst of photos.

• **Panorama**: To take a panoramic shot, swipe the camera screen right to open settings, then tap 📷. Use the on-screen guide to slowly pan your phone.

• **Edit**: To edit a photo, tap the photo to select it, then tap ✎.

• **Print**: Want to print your photos? Check out “Print” on page 36.

**Take photos**

Find it: ☰ Camera

Tap anywhere on the camera screen to take the photo.

**Tip**: You can also press the volume buttons to take a photo.

**Record videos**

Find it: ☰ Camera, then 🎥

The camera temporarily turns into a video camera and immediately starts recording. Tap ○ to stop recording.

**Tip**: To send a video in a text message, swipe the camera screen left to open your gallery, tap the video, then choose ☰ to share.
The perfect shot
Point, tap, and you’re done. But when you want something a little different, play with these camera options.
Tip: To open camera options, swipe the camera screen right. Rotate the dial to see more options.

Smart camera
Find it: Camera
Your camera can read QR codes, barcodes, and business cards. Point your camera at the code or card. When the smart camera icon appears, tap it and choose which action to take, like Add to contacts, Share, Copy, and more.

View, share, & use photos & videos
Find it: Apps → Gallery → Camera roll
- Play, share, or delete: Tap a thumbnail to open it, then tap to share, to delete, or Menu for more options.
- Tip: To select multiple files, open a folder, touch and hold a photo, then tap others.
Photos & videos

• Zoom: Open a photo in your gallery, then drag two fingers apart or together on the screen.
  Tip: Turn your phone sideways for a widescreen view.

• Wallpaper or contact photo: Open a picture, then tap Menu → Set picture as.

• Edit: Open a picture, then tap .

• Slideshow: Tap a picture, then tap Menu → Slideshow. To stop the slideshow, tap the screen.
  Tip: To show the slideshow on a television or other device, see “Connect & transfer” on page 46.

Create a highlight reel

Your phone automatically creates a highlight reel of selected photos and video clips. It even sets it to music.

You can customize a highlight reel by choosing different photos, videos, music, and even change the length.

• Create: Tap Apps → Gallery → Camera Roll, then tap → Group by event. Tap the date, then tap at the top to see the highlight reel preview.

• Edit: Tap Add title to name it. Then tap other option tabs to select different photos, add more faces, and add music. When you’re done, tap SAVE.

• Share: Tap SHARE after you’ve saved it. Or, select a previously made reel from your gallery and tap SHARE.

• View: Tap Apps → Gallery → → Highlight Reels, then tap a reel to watch it.

Capture your screen

Share a screen capture of your favorite playlist, your new high score, or a friend’s contact information. If you can show it on your phone, you can share it with your friends.

To capture your phone’s screen, press and hold both the Power and the Volume Down buttons at the same time.

To see the screen capture, tap Apps → Gallery → Albums → Screenshot.
Play Music
Quick start: Music
Music everywhere—stream it, buy it, save it, play it. Listen and create playlists anytime.

Find it: Apps ☰ Play Music
To upload your music library to Google Play Music™, from a computer, visit www.google.com/music.
Tap Listen Now to see recommendations and more.

Tips & tricks
• Volume: Press the volume buttons.
• Hide the music player: To use another app while your music plays, tap Home 🏘️. To return to the music player, swipe the status bar down and tap the song title.
  Tip: You can also select Next, Pause, or Previous by swiping down the notification bar or using the controls on your unlock screen.
• Home screen: Control music playback from the home screen by adding the Google Play Music widget.
• Subscribe: Set up a Google Play Music subscription for instant access to millions of songs on demand. Tap ⌚️, then tap SUBSCRIBE to get started.
• Playlists: Tap Menu ⌅ next to a song in your library to add it to a playlist or show other options. To edit, rename, or delete a playlist, touch and hold its name in the music library.
• Download your music library for offline listening: To download, tap ⚡️ next to a song, artist, album, or playlist. To listen offline, tap ⚡️, then tap Downloaded only to avoid using data to stream your music library.
• During a flight: Swipe the status bar down with two fingers and tap Airplane mode ☁️ to turn off all your network and wireless connections and listen to downloaded music during a flight.
• **File types:** Your phone can play MP3, M4A, AAC, AAC+, MIDI, and WAV files.

**Note:** Copyright—do you have the right? Always follow the rules. See “Content Copyright” in your legal and safety information.

---

**Locate & navigate**

**Quick start: Locate & navigate**

Find a nearby cafe, get directions or step-by-step GPS voice navigation using the Google Maps™ you know and trust.

**Find it:** Apps ➤ Maps

Enter what you want to find in the search bar, then tap it to see more information and options.

**Note:** Your map screen may look different.

---

![Map features diagram](image)
Tips & tricks

• **Find an address:** In the search field, enter an address or something you’re looking for, like “restaurant.” The map moves to show the address or local suggestions. Tap the address info at the bottom for more details.

• **Get directions:** Tap 🔍, then enter a place or address.

• **Save an address:** Tap the address info at the bottom of the screen and then tap **SAVE**. To see your saved places, swipe the map screen right and tap **Your places**.

• **Find nearby food, drinks, and attractions:** Tap 🔶 Explore nearby.

• **Zoom:** To zoom in or out, drag two fingers together or apart on the screen.

• **Turn and move:** Rotate two fingers on the map to turn it. Drag the map to move it.

• **Share a location:** Tap a location, then tap the address and tap **Menu > Share**.

• **Identify address:** Touch and hold a spot on the map to show the nearest address.

• **Get map help:** Swipe the map to the right and tap **Help**.

---

**Connect & transfer**

**Quick start: Connect & transfer**

Connect accessories, computers, networks, and more.

**Find it:** Apps 📱 > 🎨 Settings

---

**Settings**

- **Wireless & networks**
  - Airplane mode
  - Wi-Fi
  - Bluetooth
- **Data usage**
- **Advanced Calling**
- **More**

![Can’t find a setting? Search for it.](image)

![Change Wi-Fi settings.](image)

![Change Bluetooth settings.](image)

![Set default SMS app, turn on NFC, portable Wi-Fi hotspot, and more.](image)
Tips & tricks

• **Quick settings**: Get to the most used settings quickly. Swipe the status bar down with two fingers. See “Quick settings” on page 18.

• **Bluetooth® devices**: To connect a Bluetooth headset, keyboard, or other device, tap Bluetooth.

• **Wi-Fi networks**: To connect, tap Wi-Fi.

• **Wi-Fi hotspot**: To make your phone a hotspot, check out “Wi-Fi hotspot” on page 49.

• **USB cable**: Your phone’s micro USB port lets you exchange media and other files with a connected computer. To change the type of USB connection, tap Apps > Settings > Storage > Menu > USB computer connection.

• **Automatic connections**: When Bluetooth or Wi-Fi power is on, your phone automatically reconnects to available devices or networks it has used before.

• **Airplane mode**: Need to shut down wireless connections quickly? Swipe the status bar down with two fingers and tap Airplane mode.

• **Print**: Want to print your photos, docs, or other things? Check out “Print” on page 36.

---

Bluetooth® wireless

Turn Bluetooth power on/off

Find it: Apps > Settings > Bluetooth, then tap the switch to turn it on.

Tip: To quickly turn Bluetooth on or off, swipe the status bar down with two fingers and tap Bluetooth.

When Bluetooth is turned on, the Bluetooth status indicator appears in the status bar.

Tip: To extend battery life or stop connections, turn Bluetooth off when you’re not using it.

Connect devices

The first time you connect a Bluetooth device, follow these steps:

1. Make sure the device you are pairing with is in discoverable mode (for details, refer to the guide that came with the device).
2. Tap Apps > Settings > Bluetooth.
3. Make sure the power switch is on.
4. Tap a found device to connect it (if necessary, tap Pair or enter a passkey like 0000).

Tip: Tap to rename the device.

When the device connects, the Bluetooth connected indicator appears in the status bar.
To automatically disconnect or reconnect a device (like a wireless headset) anytime, just turn the device off or on.

Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

Manage devices
To manually reconnect your phone with a paired device, tap the device name in the list.
To manually disconnect your phone from a paired device, tap the device name in the list, then tap OK.
To remove a paired device, tap next to the device name, then tap FORGET.
To change the name your phone shows to other devices, tap Apps > Settings > Bluetooth, turn Bluetooth power on, then tap Menu > Rename this device. Enter a name and tap RENAME.

Let devices find your phone
To let a Bluetooth device discover your phone, tap the Bluetooth switch on your phone to turn it on.

Transfer files
• Photos or videos: Open the photo or video, then tap > Bluetooth.
• Contacts: Tap Apps > Contacts, tap a person, then tap Menu > Share > Bluetooth.

Wi-Fi Networks
Turn Wi-Fi power on/off
Find it: Apps > Settings > Wi-Fi, then tap the switch to turn it on
Tip: To extend battery life, turn Wi-Fi off when you’re not using it.

Connect to networks
To find networks in your range:
1 Tap Apps > Settings > Wi-Fi.
   Tip: To show your phone’s MAC address and Wi-Fi settings, tap Menu > Advanced.
2 Make sure the Wi-Fi power switch is on.
3 Tap a found network to connect to it (if necessary, enter Network SSID, Security, and Wireless password, and tap Connect).
When your phone connects, the Wi-Fi status indicator appears in the status bar.

Tip: When Wi-Fi power is on, your phone automatically reconnects to available networks it has used before.
Wi-Fi hotspot

Note: This phone supports apps and services that may use a lot of data, so make sure your data plan meets your needs. Contact your service provider for details.

Your can make your phone a Wi-Fi hotspot to provide portable, convenient internet access to other Wi-Fi enabled devices.

Note: Keep it secure. To protect your phone and hotspot from unauthorized access, it is strongly recommended that you set up hotspot security (WPA2 is the most secure), including password.

Find it: Apps → Settings → More → Tethering & portable hotspot, then tap the Mobile Hotspot switch to turn it on

1. Your phone turns off Wi-Fi power and uses the mobile network for internet access. Tap Mobile Hotspot settings → Configure Mobile Hotspot to set up security:
   - Network name: Enter a unique name for your hotspot.
   - Security: Select the type of security you want: None or WPA2 PSK. For WPA2, enter a unique password that others will need to access your Wi-Fi hotspot.
   - Password: Create a password with at least eight characters.
   - Broadcast Channel: If you notice interference after your hotspot has been active for a while, try different channels.
   - Client (DHCP) start address
2. Tap SAVE when the settings are complete.

When your Wi-Fi hotspot is active, other Wi-Fi enabled devices can connect by entering your hotspot’s Network name, selecting a Security type, and entering the correct wireless Password.

Wi-Fi modes

For those who like to get a bit more technical, your phone supports the following Wi-Fi modes: 802.11b, g, n, ac.

USB cables

Note: Copyright—do you have the right? Always follow the rules. See “Content Copyright” in your Legal Guide.

To load music, pictures, videos, documents, or other files from your computer, connect your phone to your computer with a USB cable. To change the type of USB connection (if necessary), tap Apps → Settings → Storage → Menu → USB computer connection.

Tip: Make sure to connect the phone to a high power USB port. Typically, these are located directly on your computer.

Note: The first time you use a USB connection, your computer may indicate that drivers are being installed. Follow any prompts you see to complete the installation. This may take a few minutes.

- For Microsoft® Windows®: On your computer, choose Start, then select Windows Explorer from your list of
programs. In Windows Explorer, your phone will appear as a connected drive (mass storage device) where you can drag and drop files, or it will appear as an MTP or PTP device that lets you use Windows Media Player to transfer files. For more instructions or driver files, visit www.motorola.com/support.

Share your data connection
Your computer can access the internet through your phone’s mobile network—you just need a USB cable.  
Tip: To share a Wi-Fi connection, see "Wi-Fi hotspot" on page 49.

1 Connect your phone to your computer using a USB cable.

Note: If your computer is running something older than Microsoft® Windows® 7 or Apple™ Macintosh™ OSX, it might require special configuration.

2 On your phone, tap Apps > Settings > Wi-Fi, then make sure the Wi-Fi power switch is turned off.

3 In Settings, tap More > Tethering & Mobile Hotspot, then tap the USB tethering switch to turn it on and start the connection.

To stop the connection, tap the USB tethering switch to turn it off, then disconnect your phone from your computer.

Data use
You can track the amount of data your phone uploads and downloads.

Find it: Apps > Settings > Data usage
Your phone shows a data usage graph. Below the graph, apps are listed from highest to least data usage. Apps that use a lot of data might also use a lot of battery power.

Some apps transfer data in the background when you’re not viewing them—to stop an app from doing this, tap it and then check Restrict background data.
To turn off background data use for all apps, tap Menu > Restrict background data.

**Note:** Usage information is provided to help you manage your phone. This may not match the amounts charged by your service provider, as they’re not measured in the same way.

**NFC**

Near Field Communication technology lets you instantly share content (like web links, contacts, and photos), information, and more, by touching the back of your phone to another NFC-enabled device.

**Find it:** Apps > Settings > More > NFC

**Share with Android Beam™**

Use Android Beam to share content on your phone with another NFC-enabled phone or tablet.

**Note:** The other device must support NFC, too.

1. Open the screen that contains the map page or browser page you want to share.

2. Touch the back of your phone to the back of the other device.

   When the devices connect, you’ll see Touch to Beam on your phone.

3. Tap your screen to share your content.

**Receive with NFC**

Receive web links, e-coupons, brochures, maps, and more from an NFC tag. Look for the NFC logo on posters, signs, store displays, and other areas. Touch the back of your phone to the logo to receive its tag information.

**Bluetooth & Wi-Fi one-touch setup**

Touch the back of your phone to an NFC-enabled Bluetooth device or Wi-Fi access point to automatically pair or connect with the device.

**Mobile payment**

You can use any secure payment app to pay for your purchase (where available).

Look for the NFC logo to confirm that you can make a mobile payment. Touch the back of your phone to the payment device to pay for your purchase.
Security
Mobile payments, wireless connections, and content sharing all demand security:

• **Range**: NFC only works over a short range (about 4 cm/1.5 inches), so it’s unlikely you’ll connect by mistake—if you did, you would still have to accept the connection to send or receive information.

• **Encryption**: Your phone uses the latest security, encryption, and authentication features to protect your personal information for mobile payments and content sharing.

Droid Zap
Easily share pictures and videos with people around you by using a two-finger swipe.

**Find it**: Tap Apps > Droid Zap

Follow the setup screens and select your Google™ account to get started.
Zap it

From the Gallery: Select the picture or video you want to share. Then place two fingers on the picture and swipe up to send it. Don’t forget to tell your friends that you’re sending.

From Droid Zap: Tap ‡ ‡ ‡ + Zap Activity, then tap ‡ to choose up to ten pictures you want to send.

Receive Zaps

From the home screen: When your friends tell you they’ve sent a picture, place two fingers on an empty space on your home screen and swipe down to receive it.

From Droid Zap: Tap ‡ ‡ ‡ + Zap Activity, then tap ‡ to receive all active zaps.

Wireless display

Mirror your phone’s screen on an HDTV without any cords—with minimal setup.

Find it: Tap Apps ‡ + Settings + Display + Cast screen

Your phone scans for compatible wireless display devices. Select a device to show your phone’s screen on the big screen. Wireless display requires either a Miracast™-enabled HDTV or a wireless display adapter to work. If your TV or monitor doesn’t support wireless display, you can purchase a Miracast or Chromecast™ accessory device to enable it.

Tip: To quickly find a wireless display device, swipe the status bar down with two fingers and tap Cast screen.

Your cloud

One account with access to everything, everywhere—phone, tablet, computer.

Sync your Google™ account

When you log in to the same Google account, all devices can get to all the same apps, movies, books, and music from Google Play™—plus you share the same Gmail™, Google Calendar™, and Google Mobile™. To add Google accounts to your phone, tap Apps ‡ + Settings + Accounts + Add account + Google.

Phone & tablet

Your Android™ phone and tablet can work together to help you get the most out of both:

• Transfer media and files: Copy files to your phone and transfer them to other devices—see “Transfer files” on page 48.

• Phone hotspot: If you have a Wi-Fi tablet, turn your phone into a Wi-Fi hotspot to let your tablet access the Internet anywhere—see “Wi-Fi hotspot” on page 49.

• Bluetooth® accessories: If you have a Bluetooth keyboard or other accessories to use with your tablet, remember you can use them with your phone too. To connect them, see “Bluetooth® wireless” on page 47.
Memory card
Your photos, videos, and other files are automatically stored in your phone’s internal memory. You can set certain apps, like the camera, to store files on an optional microSD card.

Tip: Use a Class 10 memory card.

Note: Your phone supports memory cards up to 128 GB.

Mount or unmount memory card
To mount a memory card, just put it in your phone (see “Put in the cards & power on” on page 4).

To unmount your memory card (so you can take it out of your phone), tap Apps > Settings > Storage > Unmount SD card.

Caution: Do not remove a memory card while your phone is using it or writing files to it.

Move media
You can move pictures, videos, and music to the memory card to free your phone’s internal memory. Tap Apps > Settings > Storage > Move media.

Erase memory card content
To delete all the information (music, photos, and files) from your memory card, tap Apps > Settings > Storage > Erase SD card.

Virtual Private Networks (VPN)
A VPN lets you access files on a secured network (like an office network with a firewall). Contact the network administrator to ask for VPN settings, and any additional apps or other requirements.

To enter VPN settings, tap Apps > Settings > More > VPN. Tap + to add a new VPN. Choose the type of VPN and enter settings from the network administrator. The network is stored in the VPN list so you can select it whenever you need to connect.

Mobile network
You should not need to change any network settings. Contact your service provider for help.

To see network settings options, tap Apps > Settings > More > Cellular networks.

To switch networks, tap Apps > Settings > More > Cellular networks > Network operators and select a network.

Note: Your phone supports most networks. Contact your service provider for help.
Airplane mode
Use airplane mode to turn off all your wireless connections—useful when flying. Swipe the status bar down with two fingers and tap Airplane mode.

Note: When you select airplane mode, all wireless services are disabled. You can then turn Wi-Fi and/or Bluetooth® power back on, if permitted by your airline. Other wireless voice and data services (such as calls and text messages) remain off in airplane mode. Emergency calls to your region’s emergency number can still be made.

Protect
Quick start: Protect your phone
Make sure your information is protected in case your phone is lost or stolen.

Find it: Apps > Settings > Security
The easiest way to protect your phone is to use Screen lock. You can choose to swipe to unlock (less secure), or enter a pattern, PIN, or password to unlock your phone.

For a screen lock, you can use a pattern, password, or other options.
Add some info to show on your lock screen.
Encrypt the data stored on your phone.
Screen lock
To keep your phone secure, you can make the touchscreen lock when it goes to sleep.

Find it: Apps > Settings > Security > Screen lock, then select the lock type:
• None: Turn off the screen lock.
• Swipe: Touch and drag up to unlock.
• Pattern: Draw a pattern to unlock.
• PIN: Enter four to sixteen digits to unlock.
• Password: enter four to sixteen letters, digits, or symbols to unlock.

To change when your touchscreen goes to sleep, tap Apps > Settings > Display > Sleep.

Note: You can make emergency calls on a locked phone (see “Emergency calls” on page 26). A locked phone still rings, and you do not need to enter a PIN or password to answer a call.

Can’t unlock?
Pattern, PIN, or password: If you forget your pattern, PIN, or password, you can enter your Google™ account email and password to unlock the phone.

If you don’t have a Google account on your phone, contact your service provider to have your device factory reset.

Warning: A factory reset will delete all data on your phone.

Screen pinning
Pin an app screen to keep it in view until you unpin it.

Want to let someone else use an app on your phone? Pin the app screen to hide your other apps and data.

Need to keep an important screen handy, like a boarding pass or shopping coupon? Pin the screen for easy access.

To set up screen pinning, tap Apps > Settings > Security > Screen pinning, then tap the switch to turn it on.

To pin a screen, open the screen you want to pin.
Tap Overview, then swipe up and tap the pin button.

To unpin the screen, touch and hold both Back and Overview until you see the Screen unpinned message.

Tip: To secure your phone when you activate screen pinning, tap Lock device when unpinning.
Encrypt your phone

**Caution:** If you forget your encryption code, you cannot recover the data stored on your phone or memory card. Encrypting your files can take an hour or more. Leave your phone plugged in, and be careful not to interrupt the process. Encryption protects the accounts, settings, apps, and files on your phone, so that people cannot access them if your phone is stolen.

You shouldn’t need to use this feature, but to encrypt your phone and require a PIN or password whenever you turn on your phone, tap Apps > Settings > Security > Encrypt phone.

Backup & restore

**Find it:** Apps > Settings > Backup & reset, then tap the **Back up my data** switch to turn it on

Your Google account data is backed up online. If you reset or replace your phone, just log in to your Google account to restore the contacts, events, and other details you synced with the account.

To choose what syncs with the account, tap Apps > Settings > Accounts > Google, tap your Google account, and check things to sync.

**Note:** Text messages, call logs, and items stored on your phone will not be restored. To restore your Google Play™ apps, see “Take care of your apps” on page 13.

Reset

To reset your phone to factory settings and erase all the data on your phone, tap Apps > Settings > Backup & reset > Factory data reset.

**Warning:** All downloaded apps and user data on your phone will be deleted. Data on the cloud will not be deleted.

Stolen phone?

Your phone has Android Device Manager. You can remote lock or reset your device to protect your device from thieves. For details, see [www.google.com/android/devicemanager](http://www.google.com/android/devicemanager).
